

Strategic Overview

Strategic overview and preliminary business planning

Preliminary Notes

Please note that this is an unedited work in progress.

The central thrust of this initiative is to develop an off grid autonomous base that can effectively accommodate and maintain an agricultural, medical and legal research and development hub that can produce safe food and medicines (and medical treatment with path lab and blood bank) for the surrounding community and for other markets including export markets.

Countries like many of the BRICS countries (and Islands like Vanuatu) that have decided to steer clear of the UN's Agenda 2030 will therefore be ideal for deployment of the initiative. Particularly as they could exploit the supply of meat, protein and vegetable products (that are not GMO and mRNA vaccine contaminated) to likeminded markets.

From a PEST analysis point of view: - (1) apart from the involvement of some aid agencies by ticking their requirements, and the subsequent installation of a World Bank MIGA guarantee, (2) the initiative seeks to mitigate political, legal and economic risks by having an ideological objective that will deal in a compassionate yet firm manner with the fall-out of what is fast becoming painfully evident as one of the most serious crimes ever committed against humanity. As such by a small minority of people heading up a vast array of corporate entities that hold a disproportionate amount of influence and control of economic, political, legal and media power in the world. (3) The rehabilitation and de-radicalisation centres planned in this strategic overview, therefore forms the central focus of the ideological approach embodied in this initiative. In summary, an ideological approach that is based on compassion and driven by positive responses and cognitive development.

Prosecution and litigation by the legal initiatives such as *actio popularis* in this strategy, will be focussed on those who knowingly engineered and were

willing accomplices in the Mass Formation PSYOPS conducted under the cover of the COVID 19 pandemic. A truly diabolical plan, that was in fact openly, often and boldly repeated and that manipulated multitudes of politicians and other officials and professionals into the resultant Mass Formation Psychosis that now infects the planet¹. One of the main symptoms of the psychosis is the manifestation of manic denial in the face of the mounting evidence by the likes of the Australian minister of health who still propagated taking the vaccines to protect others when that has been universally debunked. Not to mention in the face of the ever escalating and alarming vaccine related injuries, deaths, plummeting birth rates, sudden deaths and economic fallout from what were clearly misguided lockdowns and mandates. Developments that are causing deep concern with actuaries, officials and uncompromised independent scientists in an ever-increasing number of countries around the world.

The legal pleadings shown are also extremely simplistic and inadequate. As will be appreciated, copies of applications, supporting and answer affidavits, evidence and technical information, heads of arguments, with footnotes and tables of caselaw quoted from the many court cases from all over the world in the legal R&D databases are far too voluminous to attach here. Some very brief draft applications are detailed to give some idea of what will become the norm over the next few decades.

The funding requirements for an initiative like this are beyond massive, and these are not fully addressed here. Whilst some of the business plans generate revenue, there are sources of funding that simply cannot be disclosed, as the risks in doing so are simply too high. R&D on record to date is immense.²

Land has been identified in places like Vanuatu and various strategies such as a Land reform project to help previously disadvantaged groups acquire an Abattoir in South Africa are in the making. That will for example produce some 60% of the land value costs first up. Several other investors, aid agencies and financiers have been identified. A 6,000-ha property that has a going agricultural livestock export and coconut Oil production plant is well within reach at this stage.

¹ DARPA claimed a success rate in Australia of "well over 70%". Considering that the Australian government claimed that over 90% of the population got vaccinated, that claim by DARPA is probably about right.

² As at 20 February 2023 the preliminary R&D data of just one office in this initiative comprises of 52,810 Files, 1,460 folders amounting to well over 18GB of data

International RESET FREEDOM FOUNDATION

Mission Statement

A free market alternative to the reset narrative

**The time has come to burst the shackles of manipulation and control.
Now is the time for real freedom, independence and self sufficiency**

**International Head Office
Vanuatu**

Branches in every country

Trusts

where charitable donations need a trust such as in
Australia³

Constitution of the Foundation and associated Trust (where applicable)

Taken from precedents of Gates, Clinton, Rockefeller, Rothschilds, Schwab and Soros foundations
and trusts

Terms of reference

Copied from Unilateral UN international treaties on crisis and emergency
management and fundamental rights.

(Scale of fundamental rights violations against level of emergency highlighted⁴)

³ A public ancillary fund established using the relevant model trust deed will be charitable under the laws of the relevant state or territory and will also be a charity for the purposes of the *Charities Act 2013* (CTH). Ref <https://www.ato.gov.au/Forms/Public-ancillary-fund-model-trust-deed/>

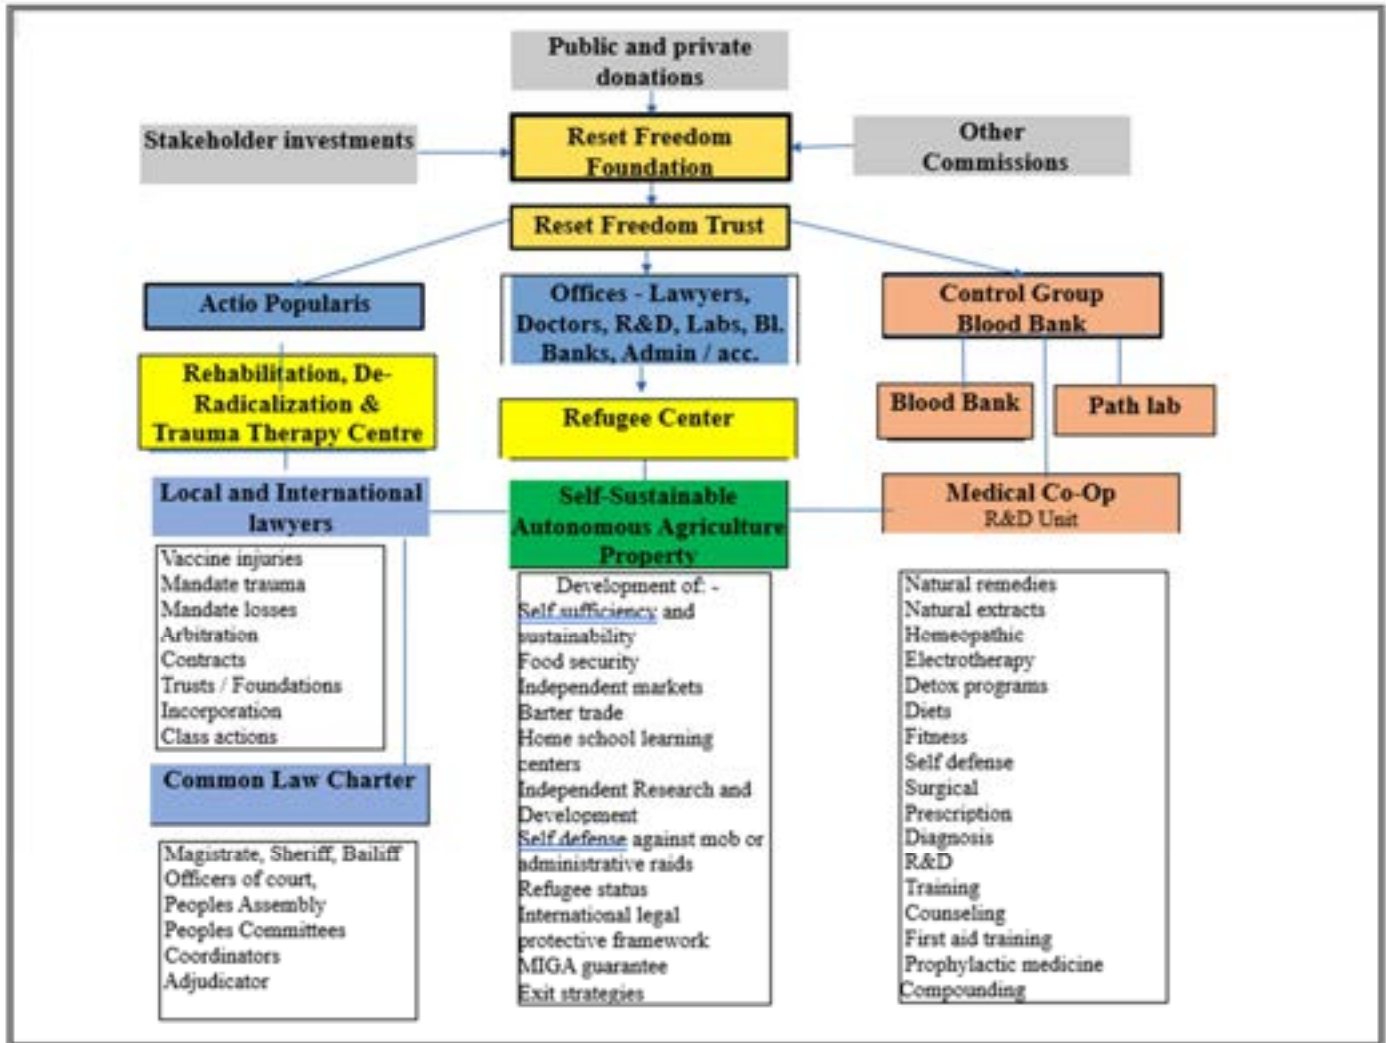

⁴ For basic research

see <https://duckduckgo.com/?q=emergency+v+fundamental+right&t=braveed&ia=web> and <https://duckduckgo.com/?q=emergency+v+f+undamental+right+UN+treaties&t=braveed&ia=web>

Background

Please read the [blog posts](#) for details on the background and progress thus far.

Organisational diagram

Interim Strategy

As the international pandemic scenario changes in playing out because of the populism driven push back it receives; and as the defensive strategies employed by both ends of the scale shift; so the strategy of this initiative needs to be fluid so as to adjust and adapt to that ebb and flow, otherwise it will fail.

The primary strategy is to create alternative and autonomously sustainable market driven communities in order to avoid and escape dependency and manipulation by

the new "reset" system that they are trying to install under programs such as agenda, 2021, 2030, the World Economic Forum and the various foundations such as the Cliton, gates and Soros foundations supporting those strategies.

Control Group Blood Bank

Unvaccinated blood is going to become the new gold. Anyone with a modicum of sense and that understands mRNA technology will readily recognize this. The life is in the blood.

So we need to set up Path labs and Blood banks to position for this inevitable demand.

The economic models for that were easy to obtain and are available on enquiry.

Vaccination rates world wide vary² from fully vaccinated to as low as only 10% in low income countries with countries like Yemen, Chad, Haiti, Dem. Rep. Congo and Burundi being less than 1%. ³

If we assume a worst case scenario of around 10% of the population being unvaccinated (according to the manipulated figures (ala Gates' book on that⁴).

Whilst 10% of a local economy constitutes a significant market share, the worst case scenario's in rural areas are not as attractive.

Natural remedies Co-operatives

The Blood Banks and Path Lab units therefore need to be connected to what at this stage we ideally label "Natural Remedies Co-operatives"

There are many reasons for the choice of those words ranging from regulatory regime implications to the mistrust that a significant and growing critical mass of awake people have of big pharma and their conditioned physicians. These fears are further driven by the fact that graphene has even been found in the encapsulations of certain vitamins and minerals⁵. Hence the need for autonomous, independent medical care and related supplies

These co-operatives will also offer remedies not connected to the manipulative practices of big pharma that have now unmistakably been exposed by this so

called⁶ crisis.

All the doctors that have been sidelined by the mandates can be drawn into this market. A big market indeed. With massive rewards and of course with that, incentives.

Moreover, as this sector will inevitably also attract people with vaccine injuries and those with vaccine remorse this will naturally amplify the market share.

Then there are the scenario's where people seek remedial treatment for themselves or their associates against the the mass formation Psyop conducted under the auspices of the DARPA patent⁷ as accepted and then promoted by the various national intelligence agencies of the administrations that declared the emergency that supposedly justified the use of the Psyop⁸.

Treatments offered by these co-operatives include: -

1. Natural remedies
2. Dietary and nutritional advice
3. Natural extracts
4. Selected homeopathic treatments
5. Electrotherapy

Legal Centre

Nothing can deal with the trauma of vaccine injuries, loss of loved ones, loss of work, livelihoods, marriages and the like because of the mandates induced and coerced by the administrations, like monetary and legal redress. We are aware that Moderna has already established legal practices in at least two countries to those ends. Their strategic model in that is of course to capture market share for the other interests in their holding companies. As a result these firms will deal with the following: -

1. Compensation from corporates, administrations and individuals for:
 - (a) Vaccine injuries, temporary and permanent including resultant disabilities and the contingent claims attached thereto in respect of medical treatment and costs including trauma and resultant conditions arising from that; (b) Loss of employment, business (attritions from litigation) and income due to the imposition of mandates . Together with that, compensation for trauma including family related trauma such as marriage break-ups, separation from children etc. Contingencies attached to the aforesaid

2. Criminal proceedings against individuals where intent (*dolus, culpa, animus injuriandi* (bodily integrity assault⁹) and *causa*) can be proved.
3. Class actions against corporations and ministries of administrations.
4. Assistance with personal status (physical and political) classification cases
5. Provide support for local and international *actio popularis* and public interest / class action cases.
6. Defense against any administrative action or pressure aimed at limiting or curtailing the initiative.¹⁰
7. Arbitration and mediation

International Common Law chapters

Please note that only credible and not nebulous common law movements are focused on in this initiative. These chapters should be established and overseen by lawyers in the legal firms who have joined the charter and have taken the position of **sheriff** or **Judicial and Legal Coordinator**. These officials will also see to the appointment of the following: -

- Court Adjudicator
- Bailiff
- Sheriff
- Jury members
- Court reporters
- Witnesses in a court
- Plaintiff and Defendant giving testimony before a court
- Anyone else wishing to establish their honour before witnesses

The chapters will have a convener, secretary, treasurer, Education coordinator, action coordinator and Judicial and legal coordinator as above described.

Details about cases to be handled in either of the court systems will be collated, logged and transmitted to the defendants as well as certain government bodies and institutions as well as the media.

Actio Popularis initiative

Under the the separate and international **Actio Popularis** initiative, **International Database of Judicial Compromise (IDJC)** the related courts of final instance include the **International Criminal Court**, the **International Court of Justice** as

well as the **International Common Law Courts** with locations world wide. **This initiative already has several international lawyers engaged in active**

Rural refugee centres

This is an integral part of the plan and will include: -

1. Self sustainability training, production, rehabilitation and mentoring.
2. Production of extracts, minerals and vitamins for the Natural Remedies Co-operatives
3. Accommodation for unvaccinated professionals like lawyers and doctors, activists (political and legal), tradespeople involved in construction of the labs and blood banks, legal firms and rural infrastructure, land owners, farmers, botanists, research personnel, horticulturalists, herbalists and so forth.

These areas will be designated their status by the Foundation or Trust as the case may be based on the aforementioned terms of reference and may include the status of refugee centers given the legal framework of their local jurisdiction.

As a result of the above a critical mass of people and associated businesses will create the synergy for a new type of market which is autonomous and independent from the market envisaged by the reset popes.

Research and development

The obtaining grants from universities to further research and develop aspects such as the traditional herbalist ("*Inyanga*") training of Swaziland and other countries, as well as aqua cultural aspects.

Creation of a world wide website

The website for the foundation will of course progressively and more fully detail all these elements, provide feedback, assistance and training as further developed by the participants so that the model can be repeated worldwide.

Collaboration

The site will be used to solicit collaboration with low income countries that resisted the vaccines and the accessing of UN funding (non vaccine/mandate conditional) for same.

Rehabilitation Centres

Rehabilitation centres for victims of vaccine injuries, emergency management

overreach, job losses, trauma could be established on the rural properties where possible.

De-Radicalisation centres for police, politicians and judicial officers like magistrates and judges.

Tax deductions

In countries where tax deductions are permitted for donations to charitable trusts and foundations, work done at the inception of aspects of the initiative will be quantified and donated to the foundation, or trust, as the case may be for each country.

⁹ Similarly in respect of the assault which is a delict affecting a person's bodily integrity the cause of action is the actio injuriarum. (see MABASO V. FELIX 19SI (3) SA X65 (A); BEN NET V. MINISTER OF POLICE & ANOTHER 1980 (3) SA 24 (C) @ 35. A physical "interference with another person's bodily integrity, is normally, wrongful. It is for plaintiff to establish the wrongfulness of the physical interference but as was observed in Mabaso's case supra at page 874 wrongfulness is (normally) a legal issue which does not carry an onus. The allegation of an "assault" implies wrongfulness and animus injuriandi. See Bennett's case supra page 34-5. It is for the defendant(s) to allege and prove facts which disprove animus injuriandi. It is sufficient for the plaintiff to plead and prove facts which indicate, prima facie and objectively, a wrongful act. See AFALIER'S PRECEDENT S OF PLEADING supra at page 34-5. Compare JACKSON V. SA. NATIONAL INSTITUTE FOR CRIME PREVENTION 1976 (3) SA 1 (A). Earlier doubts as to where the onus of proof lay have now been clarified. The onus of alleging and proving an excuse for or justification of the assault is on the defendant, (see Mabaso's case supra. Compare with MATLOU V. MAKHUBEDU 1978 (1) SA 956

(A). Ref. [https://www.policinglaw.info/assets/downloads/High_Court_Mandla_Mngometulu_v._Commissioner_of_Police_and_Others_\(2](https://www.policinglaw.info/assets/downloads/High_Court_Mandla_Mngometulu_v._Commissioner_of_Police_and_Others_(2)

004).pdf

10 This will be pretty difficult for them to do since if they want to close or ban the foundation, they would have to ban the foundations it is based up as well as the terms of reference of the UN they have become party to. The appropriate forum of final instance of such a case would have to be the International Court of Justice at the UN headquarters in New York USA. Any criminality emergent from such a case would need to be dealt with by the International Criminal Court at the Hague in the Netherlands / Holland.

Blogs

First Foundation Blog

1/30/2022

Background

Work on this initiative began about a month before the launch of this web page.

The initial idea was to start a **refugee center** for victims of emergency management overreach. That center would then be connected to a foundation that would set up branches world wide with firms of attorneys that would obtain copies of the unilateral international treaties of emergency management promoted by the likes of the UN, World bank and World Economic forum. The reason for that was to incorporate universally accepted fundamental rights clauses (as they are tempered by varying levels of national and global emergencies).

The legal firms would also be asked to obtain un-redacted copies of the indemnities signed between their governments and the vaccine manufacturers. More so because the indemnities are also described as confidentiality / intellectual property and perhaps even non-circumvention agreements. The reason for that was to facilitate the aims of the *actio popularis* initiative that I also founded.

The realization that the legal aspects are intrinsically connected to any self sufficient refugee base for those barred from the workforce, travel and many businesses, became all the more immutable as the research and evidence rolled in.

Moreover, I was approached by several people that experienced difficulty in obtaining medical treatment without being coerced into testing for COVID-19 and then being subjected to the dangerous COVID-19 treatment protocols. Moreover, the doctors and hospitals could not and in some cases would not draw blood from them to be used in surgery, insisting that vaccinated blood is safe. Even more troubling were the number of doctors, nurses, paramedics, chiropractors and other professionals in the health care system that had lost their jobs or had to close their

practices because of the draconian levels of inducement and coercion with regards to mandates and vaccines etc.

It was at that stage that I realized that the Control Group Blood Bank initiative would have to be linked to health care by those professionals who have elected not to be coerced by big Pharma through their governments.

It also became clear that the pandemic is just a beta test for the great reset preached by the likes of Charles Schwab of the World Economic Forum and its many prominent and leading political and economic adherents.

Having taken a good look at the various levels and sources of push-back and the reaction of the world's governments to it, I also realized that one cannot just wait the situation out, allowing the protagonists to supply more damning evidence of *injuria* and allowing those pushing back to acquire the necessary evidence of *causa* for a series of cases that will bring finality to the global psyop.

The staggering success of the psyop was a further factor that sparked the realization that a combined economic, medical and legal synergy needed to be developed to counter a political over reach and power grab so immense that it has effectively split the world community into a group of compliant accomplices on the one hand and an embattled group of enlightened non-compliant freedom warriors on the other hand. A group who have in fact who have been demonized to the extent where the majority of the populous wish them jobless, poor, without access to health care and starving to death.

The realization that the situation had in fact escalated so out of control that in places like Italy the time to get disconnected from the system into self sufficient communities had all but run out. The international trend to compulsory vaccination has reached levels of hysteria attributable to religious cults.

Hence this initiative.

In the following blogs I will discuss how to effectively put this initiative to use.

However, first I must prepare a Power Point presentation and video blog as one can illustrate points far more effectively with images, actual evidence, examples and a talking head.

DRAFT

in the mean time **Dr. Jack Stagman** of 7M Global in the USA has sent out a request to several potential collaborators to join the collaboration think tank. Thank you Jack

Record of Registration for Business Name

Business name information for:

RESET FREEDOM FOUNDATION

Australian Business Number ABN: 72980589162

This Record of Registration contains information recorded on the Australian Securities and Investments Commission's (ASIC) register under section 33(8) of the Business Names Registration Act 2011.

Record of registration issued by the Australian Securities and Investments Commission on 14 February 2022

Signed and endorsed by

Margaret Boothman

Assistant Commissioner, Registry Operations

Australian Business Registry Services

On behalf of the Australian Securities and Investments Commission

Next steps

2/20/2022

Our next steps are to: -

1. Register the Australian Charitable trust with the same name. This is not a simple process as the regulatory framework is extensive.
2. Research with respect to litigation, has been commenced for the ICC, the ICJ and ICLC. The latter has resulted in exclusion of several fora because of their nebulous nature.
3. Pilot inquiries and identification of possible participants have been made for the establishment of the Control Group Blood Banks, associated path labs and Natural Health Co-operatives. The financial models are already in existence and will cost in the region of A\$400,000 for each excluding the land value.
4. Work has begun and continues on the first refugee center.
5. As a Charter to maintain a sovereign people's assembly has been issued by the Common Law Registrar of Australia, the appointment of office bearers etc. now needs to be done. As this process is thorough and meticulous it will therefore take some time to implement.

Crowd Funding

We have today, 22-02-2022 set up a **Give Send Go** crowdfunding site.

You can find it at the following link:

- <https://givesendgo.com/ResetFreedomFoundation>.

The text on the site reads as follows: -

The Reset Freedom Foundation, its background, goals, and current development is set out at <https://reset-freedom-foundation.weebly.com/>

The world is changing and, the populous, the world over, have expressed their need for real freedom. Independence from physical, medical, mental, legal, and political manipulation and abuse is sorely desired by the masses of ordinary people out

there.

So, the need to organize into communities that provide real solutions taking into consideration the basic three realities; - commercial, legal, and political, has become an absolute priority.

This initiative addresses this in a manner that is built on collaboration, growth, discernment, and the wisdom required for it to succeed.

However, no initiative can succeed without funding: - Most people getting involved at this inception stage are simply donating their time and effort without monetary compensation. Setting up costs, coordination, and permanent staff requirements all cost substantial sums of money. Something that ordinary folk do not have, especially the victims of emergency management overreach that this initiative is focussed on assisting.

We have launched this initial campaign on this forum as an Australian Registered Business. As the funding rolls in it will be registered as a charitable trust as set out in its founding aims so that the required tax references and codes can be used to claim donations as a tax deduction.

For now, we need you to help lay the foundations for all that.

If you think this is a worthy cause, please do not hesitate to further it for the good of all. God knows, our world needs this.

Please help us get this campaign properly kickstarted by clicking on the link and making a donation. As stated, the moment the charitable trust is registered we shall send you the tax codes for claiming your tax deduction.

CONTROL GROUP BLOOD BANK

OVERVIEW

Control Group

Every medical trial needs a control group.

It is becoming clearer by the day that Big Pharma have made their main investors, political and medical collaborators and certain mainstream media moguls their control group by having them publicly vaccinated with placebo's. As can be expected, there is no official disclosure on this.

Seeing that this trial seems ongoing, the most logical development is for those who do not wish to partake in the experiment to be the independent control group.

An *actio popularis* case for a declaration of rights in this respect already forms part of another initiative started by the founder of this initiative. A benign declarative along the lines of there being no law preventing such an *actio popularis* establishment of status quo is sought. That initiative has collected an immense database of evidence, court pleadings, judgments and commission of inquiry findings to that end. Certain aspects of the the strategy of that initiative needs to remain classified at this stage until it is ready to deploy, not much disclosure can be made here at this stage, save to say that the evidence is overwhelmingly compelling. Controlled disclosure can be viewed at <https://actiopopularis.weebly.com/>

An application to the courts in New Zealand based on the limitation of the trials to a specific control ground has been granted.

Certification

Purchase of shares from as little as \$1.00 will entitle shareholders as participants in this initiative that will entitle them to receive a certificate stating that they are part of a

control group established by the legal doctrine of actio popularis . Where a declarative is obtained in their country, reference will be made to that, other wise to those countries wherein those declaratives were granted. The obtaining of a declarative is simply an extra string to the bow and not a prerequisite for the existence of the group.

Collaboration with another initiative already issuing control group cards is underway.

That certificate will be used as vaccine passport for the group. This will serve various purposes, some of which will be to protect the group on several levels.

Seeing that big Pharma in concert with big government and big media are creating segregation with their passports, this control group passport can be used by those in the control group that wish to completely insulate themselves from the group experimented on. For example, an associated business could then justifiably place a notice on their door that a control group vaccine passport needs to be produced before entering the premises (as it is part of an existing de-facto (de-jure where a declarative is issued) control group) even for services like local and international flights.. Perhaps the declarative orders can later be extended to mandate other carriers to segregate those in the control group from other passengers in an area with a separate air circulatory system. Selected voluntary segregation. Something I expect would be extremely difficult to counter in the circumstances.

Blood bank

Seeing that we are dealing with an experiment that alters DNA functionality and various other aspects, most of which is not readily disclosed. it will be of crucial importance to maintain a blood bank that is uncontaminated with the technology.

A blood bank that would by necessity need to be for exclusive use by the control group

Pathology laboratory

As a result, an independent pathology laboratory that could test for traces of the vaccines such as RNA, spike proteins, nano particles and other elements will be crucially necessary to secure the integrity of the blood bank.

Financial models for the establishment of blood banks and pathology laboratories

are already in existence.

Ground level investment

As this initiative will be implemented in each country it will have an enormous critical mass.

As at May 23 2021 45% of the USA population remain unvaccinated. In underdeveloped countries that percentage is much higher of course.. Developed countries are only 16% of the world population. The rates in these countries will rise to about 70% due to the levels of successful social engineering and conditioning achieved in them. Africa is still currently very low on vaccination rates.

One can therefore reasonably expect that the control group could make up 30% of the world population of 7,9 Billion. That would be 2,37 billion people. Only 15% would equate to 1,185 billion people. A very large critical mass no matter how conservatively one looks at it.

Should the new start initiative company issue 100 million shares (just 10% of that critical mass) at a dollar each, it will be enabled to deploy start up labs and blood banks one every major continent and in multiple countries on that continent. Business plan templates for setting up the pathology laboratories as well as the blood bank are available and the costs are not high, under \$300,000. This initiative has collected start up models and business plans as well as financial models for countries like India and Canada. If these are done as joint ventures with the many new entrants into that field it would cost far less, If aid agency funding and other grant funding can be secured it would be even easier. And that would expand the initial deployment drastically. Besides, the development of independent path labs and blood banks seems to have emerged as a trend of late. A most fortuitous and timeous development indeed.

As the right team would need to be assemble to manage and co-ordinate this initiative, offers are invited from the very outset.

This is your chance to get into a business with a ground swell running into the hundreds of millions world wide. These opportunities do not come about often. This is one created by a set of circumstances that, if anything is one of the most ironic and lucrative opportunities ever to present itself.

Driving factors

A full and frank disclosure of all the reported and unreported side effects and dangers of the vaccines and how the blood is altered and effected will no doubt generate the same levels of fear used to drive the campaigns for vaccination. We intend to disseminate that disclosure as far and wide as possible and via any type of means at our disposal.

We expect to use the social engineering tactics used to disseminate these vaccines against them.

Yes, we have a plan to help to completely disconnect our members from that manipulation.

Please, please give us your feedback and work with us on this noble cause.

We need to maintain the integrity of our blood

For the life is in the blood.

Control Group Blood Bank

Business Plan

Business Plan for a Pathology Laboratory and Blood Bank in Central Queensland, Australia

Executive Summary:

Our company, Control Group Blood Bank, will be a state-of-the-art medical facility specializing in pathology services and blood banking. The laboratory will be located in Central Queensland and will offer a full range of diagnostic tests and services, including blood tests, urinalysis, molecular and genetic testing, cytology and histology, and microbiology. We will also maintain a blood bank for emergency transfusions, surgeries, and other medical treatments.

Our target market will be healthcare providers, hospitals, clinics, and individuals seeking accurate and reliable diagnostic services. Our goal is to provide prompt and accurate test results, delivered in a timely and efficient manner.

Start-up costs and funding:

To establish the pathology laboratory and blood bank, we estimate that we will require an initial investment of approximately **\$2.5 million**. This will include the following:

- Purchase or lease of a suitable facility
- Equipment and supplies (e.g., laboratory instruments, reagents, computers, and furniture)
- Recruitment of qualified personnel (e.g., pathologists, medical technologists, laboratory assistants, and administrative staff)
- Licenses, permits, and other legal fees
- Marketing and advertising expenses
- Insurance and utility expenses

To fund this venture, we plan to seek funding from investors, banks, and government grants. We estimate that we will require \$2.5 million in funding to cover the start-up costs, with an additional \$1.5 million in working capital to cover expenses until the business becomes profitable.

Projected revenue:

We anticipate that our laboratory will generate significant revenue, primarily from healthcare providers and hospitals, who will be our primary customers. Based on market research and competitor analysis, we estimate that our laboratory will be able to perform an average of 500 tests per day, with an average revenue per test of \$80. This would translate to a daily revenue of \$40,000 and an **annual revenue of \$14.6 million.**

We anticipate that our blood bank will generate additional revenue, primarily from sales to hospitals, clinics, and other medical facilities. We estimate that our blood bank will be able to provide an average of 50 units of blood per day, with an average revenue per unit of \$300. This would translate to a daily revenue of \$15,000 and an **annual revenue of \$5.5 million.**

Conclusion:

In summary, we believe that the establishment of a pathology laboratory and blood bank in Central Queensland, Australia, presents a significant business opportunity. With an estimated initial investment of \$2.5 million and an additional \$1.5 million in working capital, we project that we can generate an annual revenue of \$20.1 million. Our laboratory will provide much-needed diagnostic services to the local community and offer a valuable resource to healthcare providers and hospitals throughout the region.

Med Bed facility in Central Queensland

Executive Summary:

This proposed business plan involves the establishment of a **10-bed** Medbed facility in Central Queensland, Australia, near the town of Rockhampton. The facility will target the local population of people ranging from 20 to 80 years old who are seeking treatment for various conditions and injuries, including cancer, ulcer, diabetes, heart disease, snake and spider bites. The facility will offer state-of-the-art technology and equipment, as well as highly trained and experienced medical staff.

The business plan includes a SWAT analysis and a PEST analysis, which will provide us with a better understanding of the strengths, weaknesses, opportunities, and threats of the proposed business.

The estimated establishment costs for the Medbed facility are **\$10 million**, with annual running costs estimated at \$5 million. We expect to generate an **annual revenue of \$15 million**, which will be derived from patient fees, insurance reimbursements, and government funding.

SWOT Analysis:

Strengths:

- Advanced medical technology
- Skilled medical professionals
- Convenient location
- High demand for medical services in the region
- The Medbed facility will be equipped with state-of-the-art technology and equipment, which will enable us to provide top-quality medical care.
- The medical staff will be highly trained and experienced, which will ensure that patients receive the best possible treatment.
- The facility's location in Central Queensland, Australia, will enable us to serve a wide range of patients.

Weaknesses:

- High startup costs
- Dependence on the local economy
- Limited market size
- The initial establishment costs for the facility are relatively high.
- The facility may face stiff competition from established medical facilities in the area.

Opportunities:

- Expansion into other regions
- Collaboration with local healthcare providers
- Growing demand for innovative medical solutions
- The demand for high-quality medical care in the area is growing, which provides an opportunity for us to attract more patients.
- The Australian government has recently increased funding for healthcare, which means that there may be more funding opportunities for the Medbed facility.

Threats:

- The global economic conditions may impact the ability of patients to pay for medical services.
- The government may cut funding for healthcare, which may negatively impact the revenue of the Medbed facility.
- Competition from other healthcare providers
- Changes in government regulations

- Economic instability

PEST Analysis:

Political:

- The Australian government has increased funding for healthcare, which may provide opportunities for the Medbed facility.
- Changes in government policies may impact the funding and regulatory environment for the facility.

Economic:

- The global economic conditions may impact the ability of patients to pay for medical services.
- Changes in economic conditions may impact the profitability of the Medbed facility.
- Regulations and policies related to healthcare
- Government funding for healthcare services
- Healthcare costs and insurance
- Demographics of the population
- Economic trends in the region

Social:

- The demand for high-quality medical care is growing, which provides an opportunity for the Medbed facility.
- Changing demographics in the area may impact the target market for the facility.
- Public attitudes towards healthcare
- Cultural beliefs about health and wellness

Technological:

- Advances in medical technology may impact the equipment and services offered by the Medbed facility.
- The adoption of electronic health records and other technological advancements may impact the operation of the facility.
- Advances in medical technology

Availability of advanced medical equipment

Market Analysis:

Our target market includes patients of all ages seeking treatment for a variety of conditions and injuries, including cancer, ulcer, diabetes, heart disease, snake and spider bites, and other medical issues. Our facility will serve the Central Queensland region, with a focus on the town of Rockhampton and surrounding areas. We anticipate a high demand for our services, as there is currently a shortage of advanced medical solutions in the region.

Services:

Our Medbed facility will offer a range of services, including:

- Cancer treatment
- Ulcer treatment
- Diabetes management
- Heart disease treatment

- Emergency care for snake and spider bites
- Rehabilitation services

Our facility will be equipped with advanced medical technology, including Medbeds, which will provide patients with a range of therapeutic and restorative benefits. Our staff will consist of highly skilled medical professionals who are dedicated to providing exceptional patient care.

Costs and Revenue:

Establishment Costs:

- | | |
|----------------------------------|--------------|
| • Land and Building: | \$3 million |
| • Equipment: | \$5 million |
| • Initial Staffing and Training: | \$2 million |
| • Total Establishment Costs: | \$10 million |

Running Costs (Annual):

- | | |
|---------------------------------------|-------------|
| • Salaries and Benefits: | \$3 million |
| • Maintenance and Utilities: | \$1 million |
| • Supplies and Equipment Maintenance: | \$1 million |
| • Insurance and Legal Fees: | \$500,000 |
| • Marketing and Promotion: | \$500,000 |
| • Total Running Costs: | \$5 million |

Revenue:

- | | |
|--|---------------|
| • Patient Fees (10 beds at \$1,000 per day): | \$3.6 million |
| • Insurance Reimbursements: | \$8 million |
| • Government Funding: | \$3.4 million |
| • Total Annual Revenue: | \$15 million |

Conclusion:

In conclusion, our proposed business plan involves the establishment of a 10-bed Medbed facility in Central Queensland, Australia, near the town of Rockhampton. The facility will target a wide range of patients seeking treatment for various conditions and injuries, including cancer, ulcer, diabetes, heart. With advanced medical technology, highly skilled medical professionals, and a range of services, we anticipate a high demand for our services. We believe that our facility will be a valuable addition to the region, providing patients with access to advanced medical treatments and exceptional patient care.

Freedom Foundation Legal facility

Executive Summary:

Actio Popularis will be a legal practice located in Central Queensland, Australia, specializing in medical injury claims, personal injury claims, and associated claims for loss of earnings, trauma, and other damages. The company is structured with a Research and Development (R&D) department, which focuses on developing cutting-edge legal strategies and technologies to provide our clients with the best possible outcomes.

The legal practice will have a team of experienced lawyers, medical and technical experts, and support staff, all working together to provide clients with top-notch legal representation. Our R&D department will work to develop innovative solutions, technologies, and processes to enhance the legal services we provide.

Our target market includes individuals and families who have suffered medical injuries, personal injuries, and associated damages. Our services will also be beneficial for companies and organizations who need legal representation for their employees or clients.

Actio Popularis will set itself apart from other legal practices by offering personalized legal services tailored to the unique needs of each client. Our team will work closely with each client to understand their situation and create a customized legal strategy to help them achieve their goals.

Marketing and Sales Strategy:

Our marketing and sales strategy will focus on building relationships with potential clients and referral sources in the local area. We will establish partnerships with medical providers, insurance companies, and other relevant organizations to generate leads and referral business.

We will also leverage digital marketing channels such as social media, search engine optimization, and content marketing to increase our visibility and reach a wider audience.

The firm will market its services through traditional channels, such as word-of-mouth referrals, networking events, and advertising. The firm will also leverage digital marketing, including social media, email marketing, and content marketing, to reach a broader audience.

Service Offerings:

Actio Popularis will offer the following services:

- **Medical Injury Claims:** We will provide legal representation for individuals who have suffered medical injuries due to the negligence of medical professionals or healthcare organizations.
- **Personal Injury Claims:** We will represent clients who have suffered injuries due to accidents, defective products, or other circumstances.
- **Associated Claims for Loss of Earnings, Trauma, and Other Damages:** We will also help clients seek compensation for loss of earnings, trauma, and other damages associated with their injuries.

The firm's legal services will primarily focus on medical injury claims and associated claims for loss of earnings and trauma. The firm will provide representation to individuals who have suffered injuries due to medical malpractice, car accidents, and workplace accidents, among other causes.

The firm will also offer additional services, such as wills and estate planning, criminal defense, and family law.

R&D Department:

Our R&D department will focus on developing innovative legal strategies and technologies to enhance the legal services we provide to our clients. The department will be staffed by legal, medical, and technical experts who will work together to identify and develop new solutions to complex legal issues.

The R&D department will also work to develop training programs and resources for our legal team to ensure that they have the latest knowledge and tools to provide exceptional legal services to our clients.

The firm's R&D department will be responsible for staying up-to-date with the latest advancements in medical science, technology, and legal practices. The department will work with the legal team to ensure that clients receive the best possible representation.

Financial Projections:

Our financial projections indicate that we will break even within the first year of operation and achieve profitability by the end of the second year. We anticipate that our revenue will come from legal fees generated from the services we offer.

The following is a breakdown of the estimated costs and revenue for the first year of operation:

Costs:

• Office Rent:	\$50,000
• Salaries and Benefits for Legal Team:	\$300,000
• Salaries and Benefits for R&D Department:	\$100,000
• Legal Software and Technology:	\$20,000
• Advertising and Marketing:	\$30,000
• Professional Development and Training:	\$10,000
• Other Miscellaneous Expenses:	\$20,000

Total Costs:	\$530,000
---------------------	-----------

Revenue:

• Legal Fees:	\$800,000
• Other Service Fees:	\$50,000
• Total Revenue:	\$850,000

Net Income:	\$320,000
--------------------	-----------

Conclusion:

Actio Popularis is a legal practice with a difference. Our personalized approach, combined with our R&D department's cutting-edge technologies, will allow us to provide top-notch legal services to clients seeking compensation for medical injuries, personal injuries, and associated damages. We are confident that our innovative strategies will set us apart from other legal practices, and we look forward to providing exceptional legal services to our clients in Central Queensland and beyond.

[Legal Practice Name] is a full-service law firm located in Central Queensland, Australia, that specializes in medical injury claims and associated claims for loss of earnings and trauma. The firm's R&D department will ensure that clients receive the best possible representation by staying up-to-date with the latest advancements in medical science, technology, and legal practices.

The financial projections for the first year of operation indicate that the firm will generate enough revenue to cover its costs and produce a significant net income. With a robust marketing and sales strategy, the firm will be able to reach a broader audience and establish itself as a leader in the field of medical injury claims in Central Queensland.

Rehabilitation Centres

Executive Summary:

This business plan outlines the establishment of a rehabilitation facility in Australia that specializes in providing de-radicalization therapy and courses to individuals, including doctors, police, politicians, government officials, medical staff, emergency management officials, scientists, teachers, lecturers, court officials and judges.

The facility will offer services to both court-ordered individuals and voluntary participants.

The facility will also provide rehabilitation therapy to victims traumatised by vaccine injuries, vaccine mandates, job or business losses due to lockdowns or mandates imposed by radicalized government officials, police and other officials like magistrates and judges.

The facility will focus on creating a safe and supportive environment to aid in the rehabilitation of individuals who have been traumatised or radicalized or exposed to extremist political, or commercially driven ideologies. It will offer customized de-radicalization programs that address individual needs and promote long-term success.

The market for de-radicalization services in Australia is according to the DARPA claimed Mass Formation PHSYOP success, vested in more than 70% of the overall population, or in at least as many individuals as were vaccinated.

This market is still growing and will continue to do so until these types of facilities are able to counter the influences of big Pharma funded mainstream media propaganda.

As a result, there is a significant and growing demand for these services now as court orders are obtained in various other states and the public awareness continues to gravitate toward independent media as the death and injury rates spiral, that demand will continue to grow.

The facility will operate in compliance with all relevant laws and regulations, and will maintain high standards of professionalism and ethical conduct.

SWOT Analysis:

Strengths:

- High demand for de-radicalization therapy and courses in Australia
- Experienced and qualified staff
- State-of-the-art infrastructure
- Support from government agencies
- High potential for growth
- Highly specialized and in-demand services
- Experienced and qualified staff
- Strong focus on individualized care and support

Weaknesses:

- Limited initial funding for de-radicalization programs in Australia
- High costs associated with infrastructure and staff
- Limited initial awareness and understanding of de-radicalization therapy among potential clients

Opportunities:

- Expansion into other parts of Australia
- Collaborations with universities and research institutes
- Introduction of new de-radicalization programs and courses
- Partnerships with other rehabilitation facilities
- Increasing demand for de-radicalization services
- Potential for government funding and support
- Potential to expand services to other countries
- Potential for growing funding from related charitable trusts

Threats:

- Competition from proliferating de-radicalization facilities
- Negative mainstream media propaganda against de-radicalization programs
- Risk of pushback by radicalised politicians that have not yet been beneficiaries of the therapy

PEST Analysis:

Political:

- Support from the government in terms of funding and policies
- Growing concern about radicalization and extremism in the country
- Regulations and compliance requirements related to de-radicalization programs
- Government policies and funding can impact the availability of de-radicalization services
- Political instability propagated by radicalised politicians and vilification of enlightened members of the public can increase the need for de-radicalization services

Economic:

- Funding availability can impact the growth and success of the facility
- Economic recession may decrease the ability to pay for de-radicalization services

Social:

- Increasing awareness about the need for de-radicalization programs
- Stigma associated with individuals who have been radicalized
- Need for cultural sensitivity in the design and delivery of programs
- Public perception and attitudes towards de-radicalization programs can impact the success of the facility
- Growing awareness and understanding of the need for de-radicalization services can increase demand

Technological:

- Use of technology such as existing social engineering patents to enhance the effectiveness of de-radicalization programs
- Integration of digital platforms for ongoing support and communication
- Technological advancements can impact the effectiveness and efficiency of de-radicalization programs
- Emerging technologies can provide new opportunities for providing de-radicalization services

Market Analysis:

The market for de-radicalization services in Australia is new, with an increase in demand for these services anticipated due to the success of the DARPA Mass Formation PHSYOPS conducted under the cover provided by the recent COVID 19 pandemic . Given that DARPA claimed a 70% population success rate, the market is massive or at least as large as the % of population that were vaccinated.

The market for de-radicalization therapy and courses is growing in Australia due to increasing concerns about extremism and radicalization as the death and injury rates from vaccines become more parrent. The proposed facility will primarily target individuals like doctors, police, politicians, and judges who may have been radicalized or at risk of being radicalized. The facility will also cater to individuals who have been referred by concerned family members, the courts or other government agencies.

The market for de-radicalization programs will invariably become highly competitive, and the facility will need to differentiate itself by offering high-quality programs, state-of-the-art infrastructure, and ongoing support to ensure long-term success.

The growth in this sector can be attributed to several factors, including increased awareness and understanding of the need for de-radicalization programs, increased risk of litigation, both criminal and civil, the international exposure of increasing death rates from the vaccines, financial damages caused by draconian lock downs and mandates and increased independent media attention and exposure on the issue of radicalization.

The facility will serve both court-ordered individuals and voluntary participants. Court-ordered individuals will be referred to the facility by the court system, while voluntary participants will be individuals seeking help on their own or at the recommendation of family or friends.

Financial Projections:

The proposed facility will require a significant amount of investment to set up and operate. The start-up costs include the purchase of land, construction of infrastructure, purchase of equipment and furniture, recruitment and training of staff, and initial marketing expenses.

The revenue of the facility will primarily come from the following sources: -

1. The legal practice forming part of the Reset Freedom Foundation;
2. The self-sustaining agricultural facility and its associated retail outlet for natural produce;
3. The alternative-medicine research and development laboratory;
4. The blood bank and associated pathology laboratory;
5. Donations to the Reset Freedom Foundation's Australian registered Charitable Trust,
6. Commissions from gold sourcing for the mint stamping coins to back the Basil 4 regulated digital currency of the USA based trust relegated with its management and control
7. Government funding through orders of court.

Start-up Costs:

- Land and buildings: \$5,000,000
- Infrastructure: \$2,000,000
- Staff: \$500,000
- Equipment and supplies: \$500,000
- Marketing and advertising: \$100,000
- Legal and administrative fees: \$50,000
- **Total start-up costs: \$8,150,000**

Operating Costs (per year):

- Staff: \$1,000,000
- Maintenance and utilities: \$500,000
- Supplies and equipment: \$500,000
- Insurance: \$50,000
- **Total operating costs: \$2,050,000**

Projected Revenue (per year):

- Court-ordered individuals: \$2,000,000
- Voluntary participants: \$500,000
- Government funding: \$500,000
- **Total projected revenue: \$3,000,000**

Projected Profits (per year):

- Revenue: \$3,000,000
- Operating costs: \$2,050,000
- **Profit: \$950,000**

Conclusion:

The establishment of a rehabilitation facility in Australia that specializes in providing de-radicalization therapy and courses to individuals like doctors, police, politicians, and judges, both on a court-ordered basis and voluntary basis, represents a significant opportunity to meet the growing demand for these services in the country. Despite the potential challenges associated with limited funding and negative public perception, the facility's focus on customized care, experienced staff, and high standards of professionalism and ethical conduct will position it for success in this emerging market. With a strong projected revenue and profits, the facility is

well-positioned to meet its financial goals while providing critical services to those in need of de-radicalization support.

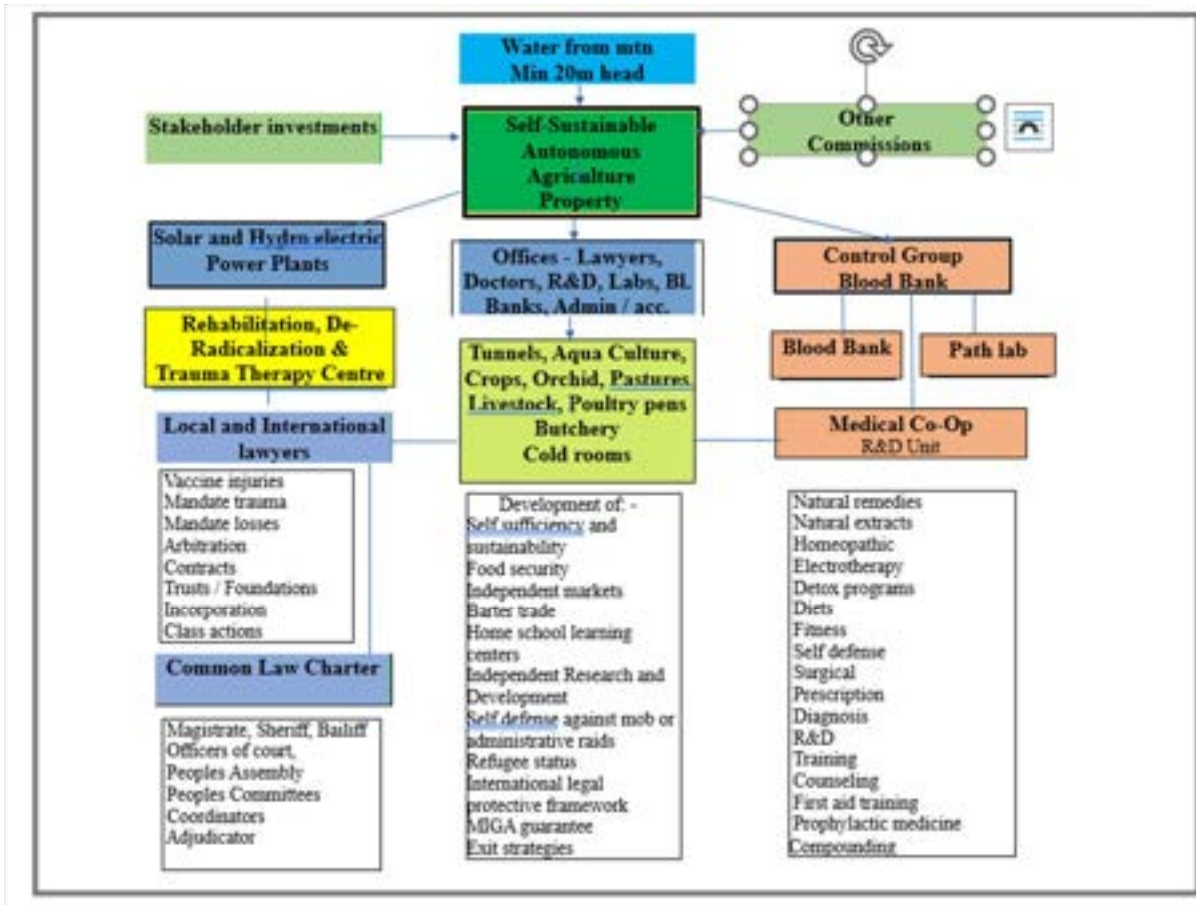

Self-sustaining agricultural project

Executive Summary:

Our rural farming operation aims to produce and sell high-quality livestock, fruits, vegetables, and herbs to local and international markets.

We will utilize a combination of solar and hydroelectric power, water from multiple sources, and state-of-the-art infrastructure to ensure efficient and sustainable operations. Our team of experts will manage the farming, animal husbandry, and research aspects of the business to ensure high-quality products.

Organisational diagram

Our organizational structure will consist of the following roles:

- CEO
- Agricultural Manager
- Animal Husbandry Manager
- Dietitian / Cook
- Natural Remedies Research Scientist
- Physician (Homeopathy, General Medicine, Electro Treatment)
- Security Guard
- Shop Assistant
- Cleaner

Specific requirements

Land

1. 700 ha including mountain for game with a stream overshadowing a plateau for buildings, vegetable lands and grazing paddocks.
2. Open vegetable garden
3. Stock paddocks

Livestock

1. 12 cattle,
2. 28 sheep,
3. 3 Eland,
4. 3 Buffalo,
5. 7 Deer,
6. 7 Boer Goats,
7. Poultry pens for chickens, turkeys and ducks
8. Rabbit pen for 2 to 20
9. 2 Riding horses

Power

1. To generate 30 KW of solar power from solar panels which will be stored in battery banks via a charge regulator and coupled to a 35 KW inverter
2. To generate 5x5 Kw of constant hydroelectric power from a stream with a 20 m head from the mountain behind the main buildings of the project.⁵

⁵ The infrastructure cost for a 30 kW solar array with a 12,000 Ah storage capacity in batteries can vary depending on several factors, such as the type and quality of solar panels and batteries, location, labor costs, permits and fees, and any additional equipment needed for installation.

As of 2021, the average cost of solar panels and installation in Australia is around AUD 1.30 to AUD 1.50 per watt, which means the total cost of a 30 kW solar array could be around AUD 39,000 to AUD 45,000. The cost of the batteries will depend on the type and quality, but a high-quality 12,000 Ah battery bank can cost between AUD 15,000 to AUD 20,000.

Additional costs may include wiring, inverters, charge controllers, mounting hardware, labor, permits, and fees. These costs can vary depending on location, complexity, and local regulations.

Overall, the estimated infrastructure cost for a 30 kW solar array with a 12,000 Ah storage capacity in batteries in Australia could be around AUD 60,000 to AUD 70,000, but this is just an estimate and can vary depending on several factors. It's

Water

1. From the stream to be stored in a dam below the summit
2. From an artesian well
3. From a mountain stream,
4. To have water purification and ionization station with fresh water storage tanks near the buildings of the project.

Buildings

1. **House** with 4 bedrooms, a study, 3 bathrooms with large open kitchen, dining and entertainment area adjacent to a swimming pool.
2. 3 car garage
3. **Shed** of 12 L X 10 W X 7 H meters with fully equipped workshop
4. **Business block** with
 - a. reception,
 - b. board room with stage and professional music recording equipment
 - c. CEO office,
 - d. R&D & It office with Windows, Apple and Ubuntu platforms, desktop computers, printers and video projectors
5. **Research Laboratory with**
 - a. Path lab
 - b. Blood bank
 - c. Herbal extract still
6. Doctors room
7. Communication and security office
8. **Armory with indoor shooting range**
9. **A farm stall** at the entrance to the property selling: -
 - a. Honey,
 - b. Biltong
 - c. Fresh vegetables
 - d. Herbs and spices
 - e. Fruit including melons
 - f. Herbal tinctures
10. A **butchery** with refrigerated **cold rooms**
11. A Research and Development laboratory
12. 3 Poultry pens for chicken, turkeys and ducks
13. 1 Rabbit pen for 2 to 20
14. 1 Stable
15. 7 Tunnels for various vegetable, fruit and herb production
16. 3 Bee hives

Computer Network and security Equipment

1. VSAT communication system

recommended to consult with a professional solar installer to get a more accurate quote based on the specific details of the project.

2. Sat Phone connection
3. HF, VHF and UHF communication centre
4. Monitors for perimeter and infrastructure cameras (24)
5. Security day/night Drone
6. Night vision, binoculars, telescope, GPS

Farm implements

1. 50 and 120 Hp tractors
2. Plow,
3. disc,
4. planter,
5. multi-functional harvester,

Vehicles

1. Toyota 4X4 Utility,
2. Station Wagon
3. quad bike

Staff

1. Dietitian / cook
2. Natural remedies Research scientist
3. Physician in homeopathy, general medicine, electro treatment
4. Agricultural manager
5. Animal husbandry manager
6. Security guard
7. Shop assistant
8. Cleaner

Cultivation

Fruit trees

1. Apple, Orange, Mango, Banana, apricot, fig, olive
2. Indigenous hard and softwoods
3. Vegetable (various)
4. Herbs and plants
5. Grasslands

Fencing

1. Security fencing around buildings
2. Subdivisions for paddocks and mountain
3. Crush pen
4. Cattle and sheep yard
5. Entire property security fenced (game proof)

Cost Estimates:

Our estimated costs for setting up the rural-based farming operation are as follows:

Cost of land and fencing: \$ 12,500,000.00

Infrastructure and Equipment:

• Solar Panels and Battery Banks:	\$80,000
• Hydroelectric Generator:	\$50,000
• Water Storage and Purification System:	\$25,000
• Buildings (House, Garage, Shed, Business Block, Laboratory, Farm Stall, Butchery, Stable, Poultry and Rabbit Pens):	\$1,500,000
• Computer and Security Equipment:	\$50,000
• Farm Implements	
• (Tractors, Plow, Disc, Planter, Multi-Functional Harvester):	\$400,000
• Vehicles (Toyota 4X4 Utility, Station Wagon, Quad Bike):	\$100,000

Livestock and Cultivation:

• Livestock (Cattle, Sheep, Eland, Buffalo, Deer, Boer Goats, Poultry, Rabbits, Horses):	\$400,000
• Fencing	
• (Security, Subdivisions, Crush Pen, Cattle and Sheep Yard):	\$100,000
• Cultivation (Fruit Trees, Vegetables, Herbs, Grasslands):	\$300,000

Total Estimated Costs: \$15,005,000

Revenue Projections:

Our projected revenue will come from the sales of the following products:

• Livestock (Meat, Dairy, Eggs):	\$300,000 per year ⁶
• Fruits and Vegetables:	\$500,000 per year
• Herbs and Plants:	\$200,000 per year
• Farm Stall Products (Honey, Biltong, Fresh Vegetables, Herbs and Spices, Fruit including Melons, Herbal Tinctures):	\$100,000 per year
• Butchery Products:	\$100,000 per year

⁶ According to the Rural Bank's Australian Farmland Values report for the period of July 2020 to June 2021, the average price for grazing land in Queensland was \$5,076 per hectare. However, it's important to note that this is just an average, and prices can vary widely depending on the factors mentioned above.

The cost of cattle in Queensland, Australia can vary widely depending on factors such as breed, age, weight, and market demand. As of February 2023, the average cost of cattle in Queensland is around AUD 3.80 per kilogram for young cattle and AUD 3.50 per kilogram for heavier cattle. However, prices can fluctuate based on market conditions, so it's best to check current prices with local livestock markets or industry associations.

What is the average weight of cattle on auction in Queensland

The average weight of cattle on auction in Queensland, Australia can vary depending on factors such as breed, age, and market conditions. Generally, the weight of cattle sold at auction can range from around 200 kg for young calves to over 500 kg for mature cattle. However, the specific weight range can depend on the type of auction and the requirements of the buyer. It's best to check with local livestock markets or industry associations for current information on the weight of cattle sold at auction in Queensland.

Total Projected Revenue: \$1,200,000 per year

Conclusion:

Our self-sustaining rural-based farming operation aims to provide high-quality products to local and international markets while utilizing sustainable and efficient practices. With our team of experts and state-of-the-art infrastructure, we are confident in achieving our projected revenue and contributing to the growth of the agricultural industry.

Charity Foundation

Executive Summary:

Reset Freedom Foundation is a non-profit foundation that aims to raise funds for pro deo and ex gratia representation, as well as the rehabilitation of both victims and perpetrators. The foundation will operate through various online fundraising platforms, such as GoFundMe and other social media channels, to generate donations and raise awareness about the foundation's mission.

The funds raised will be used to provide legal representation to those who cannot afford it and to fund rehabilitation programs for both victims and perpetrators of crimes. The foundation will also partner with local charities and organizations to expand its reach and provide additional services to the community.

Marketing and Sales Strategy:

The foundation will primarily rely on social media platforms and online fundraising websites to reach potential donors and generate donations. The foundation will also partner with local charities and organizations to raise awareness about its mission and expand its reach.

Service Offerings:

The foundation will provide pro deo and ex gratia legal representation to individuals who cannot afford it. The foundation will also fund rehabilitation programs for both victims and perpetrators of crimes.

R&D Funding:

A portion of the funds raised will be allocated to research and development efforts to enhance the foundation's services and increase its impact. The R&D efforts will focus on developing new and innovative approaches to pro deo and ex gratia representation and rehabilitation programs.

Financial Projections:

The foundation will generate revenue through donations received through online fundraising platforms and other social media channels. The foundation will also receive contributions from partnering charities and organizations.

The following is a breakdown of the estimated costs and revenue for the first year of operation:

Revenue:

- | | |
|--|---------------|
| • Donations: | \$100 Million |
| • Contributions from partnering charities and organizations: | \$125,000 |

Total Revenue:	\$100,000,125,000
----------------	-------------------

Costs:

• Legal Fees:	\$30,000
• Administrative Expenses:	\$20,000
• Fundraising Expenses:	\$10,000
• R&D Expenses:	\$15,000
• Rehabilitation Programs:	\$40,000

Total Costs: **\$115,000**

Net Income: **\$100,010,000**

Conclusion:

Reset Freedom Foundation is a non-profit foundation dedicated to providing *pro deo* and *ex gratia* legal representation and rehabilitation programs to those who cannot afford it. Through online fundraising platforms and social media channels, the foundation will raise funds to support its mission and partner with local charities and organizations to expand its reach and provide additional services to the community.

The foundation's commitment to research and development will allow it to develop new and innovative approaches to *pro deo* and *ex gratia* representation and rehabilitation programs. The financial projections for the first year of operation indicate that the foundation will generate enough revenue to cover its costs and begin making an impact in the community.

Freedom Foundation founding document

Here is an example of the founding documents of a charitable foundation similar to the Clinton Foundation. Please note that these documents are provided for illustrative purposes only, and creating that this charitable foundation will be set up with the help of legal experienced professionals from around the world.

1 Certificate of Incorporation:

Reset Freedom Foundation is a non-profit entity

We, the undersigned, do hereby certify that we wish to form a non-profit foundation under the laws of the state of Vanuato for the purpose of engaging in charitable activities, and do hereby adopt the following Articles of Incorporation.

2 Articles of Incorporation:

Article I: Name The name of the foundation is Reset Freedom Foundation

Article II: Purpose The purpose of the corporation is to engage in charitable activities, including but not limited to providing *pro deo* and *ex gratia* legal representation and rehabilitation programs to those who cannot afford it. Through online fundraising platforms and social media channels, the foundation will raise funds to support its mission and partner with local charities and organizations to expand its reach and provide additional services to the community.

Article III: Board of Directors The corporation shall be governed by a Board of Directors, which shall have the power to manage the affairs of the corporation and make decisions on behalf of the corporation.

Article IV: Officers The corporation shall have officers, including a President, Vice President, Secretary, and Treasurer, who shall be elected by the Board of Directors.

Article V: Membership The corporation shall not have members.

Article VI: Dissolution In the event of the dissolution of the corporation, all assets shall be distributed to one or more organizations that are exempt from taxation under section _____ of the Internal Revenue Code.

3 Bylaws:

Article I: Purpose The purpose of these bylaws is to provide rules and procedures for the operation of the corporation.

Article II: Board of Directors The Board of Directors shall be responsible for the management of the corporation and shall have the power to make decisions on behalf of the corporation.

Article III: Officers The officers of the corporation shall include a President, Vice President, Secretary, and Treasurer, who shall be elected by the Board of Directors.

Article IV: Meetings The Board of Directors shall meet at least once a year and at such other times as may be necessary.

Article V: Committees The Board of Directors may establish committees to carry out specific functions of the corporation.

Article VI: Amendments These bylaws may be amended by a majority vote of the Board of Directors.

4 Conflict of Interest Policy:

The corporation shall adopt a conflict of interest policy to ensure that all transactions and activities are conducted in the best interests of the corporation and without any personal benefit to any director, officer, or employee.

5 Tax Exemption Application:

The corporation shall file an application with the Internal Revenue Service to obtain tax-exempt status under section 501(c)(3) of the Internal Revenue Code.

Again, these documents are intended as an example and should not be relied upon for legal advice. A lawyer or other qualified professional should be consulted when creating a charitable foundation.

Freedom Foundation Trust Deed

Here is an example of a trust deed for a charitable trust in Queensland, Australia. Please note that this is provided for illustrative purposes as it will be set up after consultation with an experienced team of lawyers from around the world.

TRUST DEED FOR A CHARITABLE TRUST

THIS DEED is made on [date]

BETWEEN [Name of Settlor], of [Address of Settlor], Queensland, (hereinafter called "the Settlor") of the first part;

AND [Name of Trustee], of [Address of Trustee], Queensland, (hereinafter called "the Trustee") of the second part.

RECITALS

WHEREAS:

- A. The Settlor is desirous of establishing a charitable trust.
- B. The Settlor wishes to transfer the property described in Schedule 1 to the Trustee upon the terms and conditions set out in this Deed.
- C. The Trustee has agreed to accept the said property upon the terms and conditions set out in this Deed.

Agreement

IT IS HEREBY AGREED as follows:

1. Establishment of Trust

The Trustee agrees to hold the trust fund upon trust to apply the income and capital of the trust fund for the charitable purposes specified in clause 3 of this Deed.

2. Transfer of Property

The Settlor hereby transfers the property described in Schedule 1 to the Trustee for the charitable purposes set out in this Deed.

3. Charitable Purposes

The Trustee shall hold and apply the trust fund for the following charitable purposes:

[Specify the charitable purposes of the trust]

4. Application of Income and Capital

The Trustee shall apply the income and capital of the trust fund to carry out the charitable purposes of the trust as specified in clause 3 of this Deed.

5. Powers of the Trustee

The Trustee shall have the following powers:

[Specify the powers of the Trustee, including the power to invest and distribute income and capital]

6. Appointment of Additional Trustees

The Trustee may appoint additional trustees at any time to assist with the management of the trust.

7. Termination of Trust

The Trustee may terminate the trust at any time, provided that the trust fund is distributed to one or more organizations that are charitable according to the laws of Queensland.

8. Miscellaneous

[Include any additional clauses that are necessary, such as indemnification of the Trustee and governing law]

IN WITNESS WHEREOF the parties have executed this Deed on the day and year first above written.

SIGNED by the Settlor in the presence of:

[Signature of Settlor]

[Name of Settlor]

SIGNED by the Trustee in the presence of:

[Signature of Trustee]

[Name of Trustee]

SCHEDULE 1

[Describe the property that is being transferred to the Trustee]

Actio Popularis

Actio popularis is a Latin term that means a lawsuit brought by a third party in the interest of the public as a whole. It derives from Roman penal law. For example, it is sometimes used in the context of genocide and terrorism prosecution under international law.

Yes, the time is here; -

for the
general population
to take mass action

To force their elected representatives
to stop betraying their constituents by contravening the Nuremberg code

to expose the secrets that should not be secrets.

Stop the false narrative sold them by big pharma, their government funders
and the media they control

To face the hard facts: -

No one should ever be forced to take an Mrna treatment that could modify their DNA
that is not sufficiently tested
and that governments are exempting big Parma in respect of consequential damages.

So

it's is time for

Developing a co-ordinated *actio popularis* case
for The International Criminal Court (ICC) and
The International Court of Justice.

Better still.

A new forum that is untainted with corruption and undue influence.
A Nuremberg 2 / International COVID 19 Court of sorts.

but for now

To approach high courts for declarations of rights
To use those in lower courts to obtain protection orders.

En masse

Undergirded by petitions of massive populists movements like the March for Freedom Campaign.
Which governments and their media are trying to ignore and in fact stifle and suppress world wide.
Movements the media, courts and big corporations are too afraid to even report on.

And can no longer be ignored

If we do not do this, we are all going to be drawn over the cliffs
like lemmings to the slaughter.

Now go to the next Tabs to see what is [already afoot](#) on a similar vein in other countries as well as what judgments have so far been won, together with the overwhelming [evidence](#) that supports that .

All we need now is effective co-ordination

[Collaborate](#) with us to that end please

Background information and notices

The ten points
of the Nuremberg Code

The ten points of the code were given in the section of the judges' [verdict](#) entitled "Permissible Medical Experiments":[6]

1. The voluntary consent of the human subject is absolutely essential.

This initiative has its roots on the following commission

**THE COMMISSION OF
INQUIRY**

INTO

ADMINISTRATIVE

IRREGULARITIES

IN THE JUDICIAL SYSTEM

AND

ACTIVITIES BY MEMBERS OF

SECRET

SOCIETIES

2. **The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.**
3. **The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.**
4. **The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.**
5. **No experiment should be conducted where there is an *a priori* reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.**
6. **The degree of risk to be taken should never exceed that**

NOTICES

1. This Commission was condoned by His Lordship Justice Mall of the Durban and Coast Local Division of the Supreme Court of South Africa on the 24th day of May 1995 as per pages 11 at 20-30, 12 at 5 and 14 of the transcript of case No A 175/93.
2. The Commission manifests as an Actio Popularis Commission.
3. It operates under Sections 8(1) 9, 15, 18, 32, 33, 34, 38, 198, 231 (5), 232, 233, and Schedule 6 (22) of Constitution of the Republic of South Africa and as such is independent of any organ of state.
4. It's Terms of Reference covers inter alia any other related matters into the topic of it's description.
5. This Commission does not fall under the Commission's Statute, and

- determined by the humanitarian importance of the problem to be solved by the experiment.**
- 7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.**
 - 8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.**
 - 9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.**
 - 10. During the course of the experiment the scientist in charge must be prepared to**
- is therefore appropriately able to independently and without encumbrances to investigate organs of state in line with the official state doctrine of Openness and Transparency.
- 6. None of its investigating officers are Officers of Court in order that it may similarly appropriately investigate the activities of Officers of Court i.e. attorneys, Advocates, Public Prosecutors, Magistrates and Judges.**
 - 7. This Commission has, at this stage, no quasi judicial powers of itself, but it may provide evidence to any other personam, instance or agency, in any litigation before the Courts here and abroad, or any other recognised forum, or to bodies fulfilling similar roles such as the Truth and Reconciliation Commission.**

terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill and careful judgment required of him that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

11.

These have all been violated.

View the summary of those violation here

<https://www.infowars.com/posts/watch-experts-call-for-nuremberg-2-0-following-covid-crimes-against-humanity/>

8. This Commission or any of its members, agents and employees may litigate in *personam*, or under section 38 of the Constitution, or on any other legal grounds as are disposable to any person at law in any tribunal or forum as provided for under Section 34 of the Constitution of the Republic of South Africa, having regard to such international instruments as the Helsinki Accord in line with the provisions encapsulated in sections 321, 232 and 39 of the Constitution.
9. This Commission has found it necessary (due to several death threats against its investigating officers) that the findings of this Commission be published on the Internet from time to time in order to secure the safety of the investigating officers. Access to the web sight

concerned is secured under the auspices of International Agencies engaged in similar investigations and are therefore not as yet accessible to the public at large.

10. Members of the public are invited to supply any information that may assist this Commission in its investigations.

11. This commission is assisted by local and International Agencies involved in similar work.

12. This Commission is not state funded but independently funded from the populous at large.

Application and Arguments

This page will contain instruction for lawyers well as templates and precedent on how and on what basis to apply for declarative orders from the superior courts in their respective countries.

There will similarly be templates for members of the public on how to obtain protection orders from their courts of first instance.

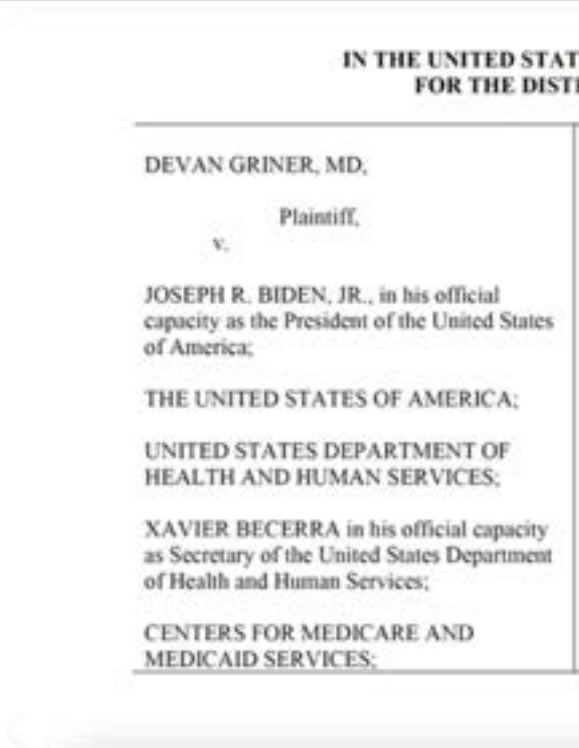

It already contains links to documents to present to the workplace and schools trying to mandate the treatment under the guise of a vaccine.

There will be more links to the petitions, declarations, submissions, protests case law and evidence to contain in the applications together with draft pleadings and supporting affidavits.

Moreover, there will be precedents for members of parliament on how to move authoritative motions backed by international law and treaty law, for administrations to recognize the establishment of an independent forum for

a COVID 19 international court and to get their administrations to enforce extradition orders and judgements of the said forum in their home countries.

International Database of Judicial Compromise

THE SPOILSPORT OR THE CULPRED WHO ADMITTED EVERYTHING.

International (*actio popularis*) Database of Judicial Compromise (IDJC)

This initiative started in response to a botched attempt by a national intelligence agency at listening in on a Whatsapp conversation between the founder and a barrister from another country.

In conversation with other lawyers it was quickly realized that an international database of intelligence on judicial credibility and levels of compromise world wide, is sorely needed. More so because of the following: -

1. The massive censure and disinformation campaigns propagated by governments and mass and social media over the last two years of global emergency management roll outs following what we now know was a the biologically engineered COVID 19 pandemic.
2. Given the background success of **THE COMMISSION OF INQUIRY INTO ADMINISTRATIVE IRREGULARITIES IN THE JUDICIAL SYSTEM AND ACTIVITIES BY MEMBERS OF SECRET SOCIETIES** (1) of South Africa,

In bringing about the practice of questioning judges on their affiliations to secret societies by the [Judicial Services Commission of South Africa](#). As well as various court cases, reports and publications exposing Military and National Intelligence agencies and their infiltration of communities and even political parties etc. The establishment of databases in other countries that will invite evidence from the public of similar activities world wide, will create a very valuable database of intelligence on judicial credibility and levels of compromise world wide.

3. Established whistle-blowers will be able to register their findings on the database and thereby protect the findings from being stifled, sidelined or censored by administrations, social media platforms and mainstream media.
4. Collating, re-publication and distribution of media reports, court judgments, apologies by Judges, evidence of administrative irregularities, copies of letters written by Judicial Service Commissions (JSC) Chairpersons to Ministers of Justice and corruption stifled by courts, judges, various JSC's, politicians, administrations, internet search engines and mainstream media world wide.
5. Moreover the web page will provide information, case law, pleadings, techniques and workshops on how to recognise compromise, expose it, manage it and activate procedures /interlocutory applications for the allocation of impartial and independent and recusal of presiding officers where necessary.
6. Ranking of evidence received could range from alleged, unverified, established on a balance of probabilities or as irrefutable evidence.

Next steps

1. Registration of business, foundations and trust names world wide
2. Acquisition of domain name

3. Creating of web page with portals for accessing precedent, inviting training workshops at venues or via zoom calls
4. Establishment of channels and chat rooms on Telegram, Signal, Facebook, Twitter, Rumble, and other portals.
5. Volunteers sought.
6. Donation of Future inputs to charitable Trusts and Foundations generating tax credits.
7. Advertisement of invitations of evidence.
8. Build of databases.
9. Dissemination and sale to other agencies.
10. Activation of collaboration strategies.
11. Acquisition of funding.
12. We need branches world wide. Collaborators please contact the founder at izak@izak.co.za or +61452578992

This initiative will fall under the *Actio Popularis* initiative which in turn falls under the Reset Freedom Foundation initiative.

These are detailed at: -

1. <https://actiopopularis.weebly.com/> ;
2. <https://controlgroupploodbank.weebly.com/> and
3. <https://reset-freedom-foundation.weebly.com/>.

Footnotes

(1) *This Commission was condoned by His Lordship Justice Mall of the Durban and Coast Local Division of the Supreme Court of South Africa on the 24th day*

of May 1995 as per pages 11 at 20-30, 12 at 5 and 14 of the transcript of case No A 175/93.

Evidence

This initiative and its related commission is in possession of a vast amount of evidence.

Research to date (June 2022) consists of 55,868 Files in 858 Folders amounting to over 15 GB of data

This is being organized for presentation.

A formidable task that without a doubt requires assistance.

Should you be able to offer assistance please send an email to:

The tasking for this study was to evaluate the potential for adversaries to exploit advances in Human Performance Modification, and thus create a threat to national security. In making this assessment, we were asked to evaluate long-term scenarios. We have thus considered the present state of the art in pharmaceutical intervention in cognition and in brain-computer interfaces, and considered how possible future developments might proceed and be used by adversaries.

India Holds Bill Gates Accountable For His Vaccine Crimes

The fields of neuroscience, psychopharmacology, and cognition are in rapid flux because new scientific tools have provided the capability to develop fundamental understanding of linkages among brain activity, electrical and chemical stimulation, and human behavior. Applications to human performance modification are being driven primarily by medical needs, e.g., “cognitive repair,” and there are significant new technological developments in this area.

Application and Arguments

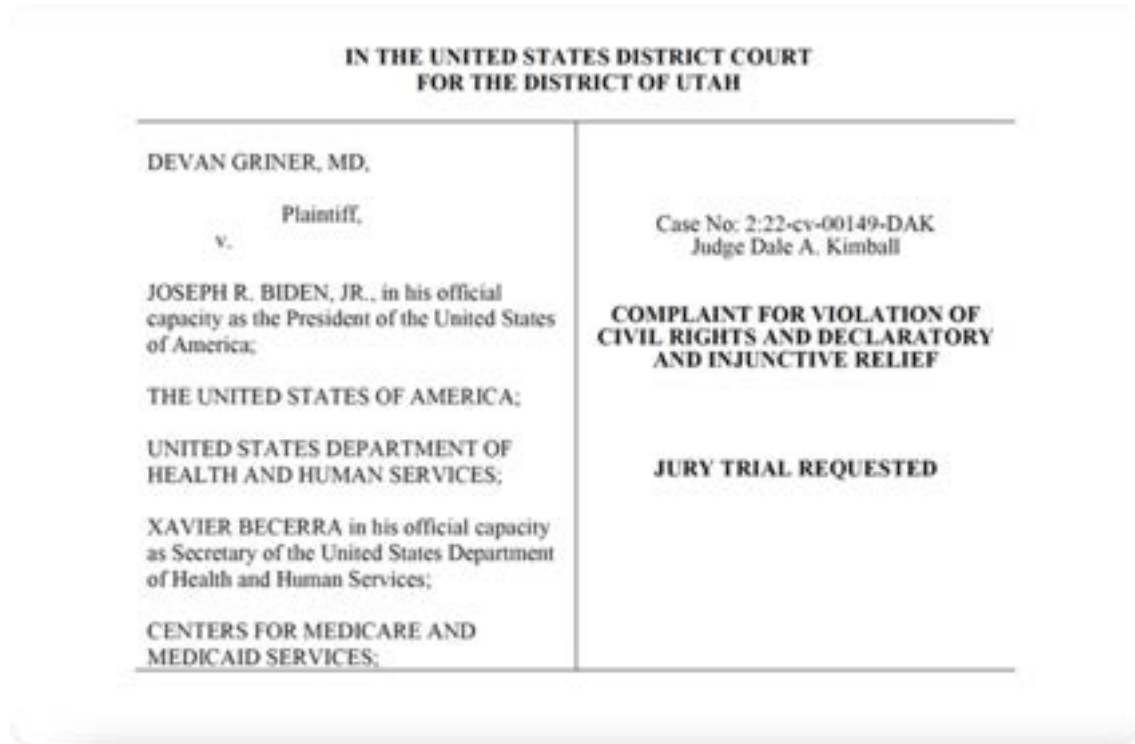

This page will contain instruction for lawyers well as templates and precedent on how and on what basis to apply for declarative orders from the superior courts in their respective countries.

There will similarly be templates for members of the public on how to obtain protection orders from their courts of first instance.

It already contains links to documents to present to the workplace and schools trying to mandate the treatment under the guise of a vaccine.

There will be more links to the petitions, declarations, submissions, protests case law and evidence to contain in the applications together with draft pleadings and supporting affidavits.

Moreover, there will be precedents for members of parliament on how to move authoritative motions backed by international law and treaty law, for administrations to recognize the establishment of an independent forum for a COVID 19 international court and to get their administrations to enforce extradition orders and judgements of the said forum in their home countries.

[Dr. David Martin](#) who has been following the research, money, patents and International [Biological Weapons Conventions](#) for decades is making real progress.

A good video summary of the *status quo* relating to his latest efforts can be viewed at [Forbidden Knowledge TV](#) .

A summary of his court cases can be found at his site [Prosecute Now](#).

An appeals court in Portugal has ruled that the PCR process is not a reliable test for Sars-Cov-2, and therefore any *enforced quarantine based on those test results is unlawful.*

<https://off-guardian.org/2020/11/20/portuguese-court-rules-pcr-tests-unreliable-quarantines-unlawful/>

Last December Dr Wodarg and Dr Michael Yeadon, the former vice president and chief scientist of Pfizer for allergy and respiratory conditions, filed an [urgent application](#) with the European Medicine Agency for the immediate suspension of all SARS CoV 2 vaccine clinical trials, in particular the BioNtech/Pfizer trials, citing concerns about female fertility.

Their application also cited concerns about PCR testing, saying all “endpoints” of COVID-19 cases used to determine vaccine efficacy in the Phase 3 or 2/3 trials should have their infection status confirmed by

“appropriate Sanger sequencing” because of high cycle thresholds used in some trials and “design flaws of certain RT-qPCR tests identical to or modeled after what is sometimes called the “Drosten-Test”.”

Title 21 of the Code of Federal Regulations (CFR) states that Americans in a clinical study must give their written consent to any medical treatment such as vaccination. Since vaccines gain licensure from the FDA by passing through 3 out of 4 safety trials, the side effect ratio is never truly known till the vaccine is used widely by millions. All Americans who receive the vaccine will still be enrolled in surveillance studies (Stage-4) and subject to the CFR protections. According to Title 21:50B of the CFR, informed consent requires candidates for vaccination to be given the right to refuse vaccination; have the right to confidentiality (privacy) that their vaccination data will not be shared with other parties without their consent; and have the right to know if there are any alternatives to vaccination.

Great Barrington Declaration

As infectious disease epidemiologists and public health scientists we have grave concerns about the damaging physical and mental health impacts of the prevailing COVID-19 policies, and recommend an approach we call Focused Protection.

“Based on the rules of criminal law, asserting false facts concerning the PCR tests or intentional misrepresentation, as conducted by Messrs. Drosten and Wieler and the WHO, this can only be interpreted as fraud,” he explained. “Based on the rules of the civil tort law, this translates into intentional infliction of damage.”

“Under tort laws, all those harmed by these PCR test-induced lockdowns are entitled to full compensation for their losses,” he added. “In particular, there is a duty to compensate – that is a duty to pay damages – to companies and self-employed persons as a result of the lockdown and other measures.

Dr Reiner Feullmich

Great document citing laws codes and asking the employer to complete a questionnaire

VERY Important.

Print and keep a copy at hand

I would add to the questionnaire that if they insist that I receive my rights to claim for consequential losses, injury and damages. Make them sign a written ultimatum to you.

Make them sign that they read the Nuremberg code and federal regulations.

JURY TRIAL REQUESTED

Legal Pleadings

Here is an example of a typical public interest application to the International Criminal Court at The Hague, seeking an interdict against crimes against humanity. Please note that this is provided for illustrative purposes only as the final applications have been under development by a team of international lawyers from around the world, since 2020.

IN THE INTERNATIONAL CRIMINAL COURT

(Den Hague)

[Date]

Case No _____

In the matter between

Applicant 1

Actio Popularis (in the public interest)

And

Respondent 1

Notice of Motion

(Preceding summons of *crimen injuria* and the delict described in the particulars of claim)

To the registrar of the above honourable court: -

Oude Waalsdorperweg 10 2597 AK,

The Hague

The Netherlands

Please take notice that Applicant 1 is:-

[Your Name]

[Your Address]

[City, State, Zip Code]

[Phone number]

[Email Address]

Dear Sir/Madam,

APPLICATION FOR INTERDICTION AGAINST CRIMES AGAINST HUMANITY

Please take Notice that I, [Your Full Name], of [Your Address], make this application to the International Criminal Court pursuant to Article 15 of the Rome Statute, on behalf of the public interest and in the interest of justice.

1. The basis for this application is as follows:

[A detailed account of the facts that give rise to the alleged crimes against humanity, including the nature and extent of the harm caused, the perpetrators, the victims, and any relevant evidence. Specific provisions of the Rome Statute, Nuremberg Code and other statutes, treaties and regulations that have been violated, with supporting documentation and witness statements, news articles, reports from human rights organizations etc.]

2. The order that I am seeking is as follows:

That a rule *nisi* ensue that the respondents show cause to this honourable court in a time set by this court, as to why the draft order attached hereto, or parts thereof be not declared a final order with immediate executive effect.

3. I believe that the alleged crimes against humanity are of such gravity as to warrant the attention of the International Criminal Court, and that there is a reasonable basis to believe that these crimes have been committed.
4. I make this application in good faith and believe that the facts stated in this application are true.
5. I have attached to this application any supporting evidence or documentation that may be relevant.
6. I request that the Court hear this matter as soon as possible.
7. I am willing to give evidence in support of this application.

[Your Signature] [Your Full Name]

Draft Order

IN THE INTERNATIONAL CRIMINAL COURT

(Den Hague)

[Date]

Case No _____

In the matter between

Applicant 1

Actio Popularis (in the public interest)

And

Respondent 1

DRAFT ORDER

It is the order of the above honourable court: -

That the respondent show cause why: -

1. Respondent does not fit the description of a radicalised person, cultist, terrorist and a danger to the public in terms of the definitions of the intelligence agencies as contained in the supporting evidence to the founding affidavit hereto.
2. Respondent should not be immediately suspended from their current position.
3. Respondent should not be required to undergo de-radicalization therapy as directed by this honourable court.

Pleadings

Here is an example of typical pleadings and heads of argument that could be used to justify a public interest application for relief against crimes against humanity to the International Criminal Court at The Hague:

PLEADINGS:

1. Introduction a. Identification of Applicant b. Summary of the matter c. Statement of relief sought
2. Jurisdiction a. The jurisdiction of the International Criminal Court b. The Crimes Against Humanity Act c. The Rome Statute of the International Criminal Court
3. Background a. Historical context of the conflict b. The role of the alleged perpetrators in the conflict c. The gravity of the alleged crimes
4. Allegations a. The specific allegations of crimes against humanity b. Evidence supporting the allegations c. The alleged perpetrators
5. Relief Sought a. Specific relief sought by the applicant b. Reasons for seeking relief from the International Criminal Court

HEADS OF ARGUMENT:

1. Jurisdiction a. The International Criminal Court has jurisdiction over crimes against humanity b. The applicant has standing to bring a public interest application
2. The Alleged Crimes a. The alleged crimes against humanity are well documented b. The gravity of the alleged crimes warrants intervention by the International Criminal Court
3. The Alleged Perpetrators a. The alleged perpetrators are responsible for crimes against humanity b. The alleged perpetrators have not been held accountable for their actions
4. The Role of the International Criminal Court a. The International Criminal Court has a duty to investigate and prosecute crimes against humanity b. The International Criminal Court is a vital tool in the fight against impunity for crimes against humanity
5. The Public Interest a. The public has a right to accountability for crimes against humanity b. The public has an interest in ensuring that those responsible for crimes against humanity are held accountable
6. The Relief Sought a. The relief sought by the applicant is necessary to ensure accountability for crimes against humanity b. The relief sought is in the public interest and will contribute to the fight against impunity for crimes against humanity.

SIGNIFICANT RECENT DEVELOPMENTS

SIGNIFICANT RECENT DEVELOPMENTS By Izak Labuschagne in June July 2021

The [Portuguese case](#) that exposes the vast nature of the international fraud caused by COVID 19 case reporting from PCR tests that do not work and false reporting of cases because of money granted in respect of such cases by governments to hospitals etc, is a springboard for the case being prepared by [Dr Reiner Feullmich](#) from [the Investigative Corona Committee of Germany](#).

The fact that the South Africa government [cannot supply evidence of the actual virus](#) and are using the courts to try and stifle further inquiry is very telling indeed.

Informed deductions (derided as conspiracy theories by the fake mainstream media) that the virus is man made, now seem to be a fact, as information emerges (in the US Senate no less) on how Dr. Fauci funded the research. Is it perhaps the possibility that a man made cure is in existence, the reason why no one wants to release the details of the so called virus? Why they stifled effective treatments? These questions are growing in amplitude and will continue to do so.

The fact that the push-back against this perceived hoax is growing

I say perceived hoax because it is beginning to dawn on people that the new strains and spikes occur after the so called vaccines are administered. That together with the quite obvious stifling of treatments that vastly reduce fatalities like Ivermectin and Hydroxychloroquin and the statistics supporting that, is beginning to enrage a populous that are waking up to the fact that they are being lied to at the expense of deaths in their families and injuries from the vaccines (also under-reported and stifled)

The fact that details of the fines attracted by big pharma like Pfizer and Gates are now becoming known, destroys their attempts to label such facts conspiracy theories.

The desperate way in which media and social media giants who are heavily invested in big pharma are trying to stifle disclosure of risks, is even more telling and yes, people are getting to grips with the real story here, the real narrative, the stifled (at all costs) narrative.

What with the dangers of 5G radiation levels now becoming more and more known after the declassification of certain CIA documents, people are beginning to see the links between the so very coincidental and simultaneous 5G roll-out, the great reset plan that is openly admitted, a seriously questionable USA election (with all the evidence that was previously stifled now pushing through) and the so-called COVID 19 pandemic, the latter which is clearly being used to mask, distract and coerce a populous in a direction for which there has been no debate or popular consent. What with all that becoming clearer every day, the groundswell is building and building.

What with the aims of the World Economic Forum and the Rockefeller's becoming widely know, the distrust in the populous is reaching', well, revolutionary levels. That can be seen from the massive March For Freedom rallies that are steadily growing in critical mass and intensity despite violent efforts to stifle them. This will not end well. And regardless the outcome. There will be very, very serious consequences.

It is true that the picture emerging in these turbulent times is so ugly that most people dearly want to ignore the cruel facts of it. Besides, it absolves them from warning others. It insulates them from being branded *conspiracy theorists*. Something which is in fact fast becoming a significant compliment. A population reduction Harikari of sorts. If one could virtue signal such supposed self sacrifice. When the cowards realize they are all severely injured disabled or dying it will be up to the un-duped populous to fix things.

But wait, let us not ignore the religious overtones from the esoteric's (that fancy themselves as the custodians of wealth and control for so many millennia), as well as the Judeo Christians (that form the bedrock of western law and democratic systems), Islamists, Buddhist and new age communities. Ignoring spiritual discernment is to discount the decision making process of a vast populous.

Australian
Human Rights
Commission

COVID-19 vaccinations and federal discrimination law

Summary

If there is no specific law requiring a person to be vaccinated, individuals, businesses and service providers are encouraged to obtain legal advice about their own specific circumstances, and to carefully consider the position of vulnerable groups in the community before imposing any blanket COVID-19 vaccination policies or conditions. These may have unintended consequences, particularly for some people with disability, and may also breach federal discrimination law.

<https://humanrights.gov.au/about/covid19-and-human-rights/covid-19-vaccinations-and-federal-discrimination-law>

Confidential Sources of revenue

There are sources of revenue (some from established trust funds) that cannot be detailed in this overview.

One of the successfully released sources has resulted in the purchase of 13 Intercontinental aircraft complete with maintenance programs and military crews.

These are to transport gold and silver to a mint in the USA for the minting of coins that will form the hard securities for a new Basil 4 regulated digital currency to mitigate the inherent risks and failures of the imploding USA Federal Reserve system

Since the development of that strategy 29 countries are moving to a gold standard and many are looking to join BRICS which has released its own digital coin backed by its resources and gold backed trading regime. Saudi Arabia, Egypt, Argentina and Mexico are all interested in joining and some are in a very advanced stage of doing so. As the Western hegemony self-destructs, so the new order is poised to take over. The world is changing very rapidly.

By way of illustration, the commissions generated for identifying mines to supply the 300 kg of gold per month from countries in Africa, is about AU \$80,000 per month. With that kind of revenue, plans such as these (which create their own revenue) will be seriously securitised. No wonder the pushback is what it is.

Contingencies & Strategies

Multi-level (Commercial, political, legal and tactical) contingencies and strategies exist designed to mitigate the risks of a total onslaught by the principalities and powers that want to stop this plan as well as those developed on every other continent with people hand-picked by the current leadership. These exist and are in an advanced stage of development, consolidation and on-going re-alignment as the onslaught varies. They obviously cannot be disclosed at this stage.

This page by Stopthecrime.net has an enormous amount of further relevant links

<http://www.stopthecrime.net/>

The SARS-CoV-2 virome HAS NEVER BEEN ISOLATED.

Anywhere. (*Neither has SARS-CoV-1*)

This is the designator given to the theorised viral agent that causes the observed disease COVID-19, the Wuhan-China 'flu.

To this time there are no actual samples of SARS-CoV-2 isolated, anywhere.

The genome being used to set testing and gene therapies is in fact a series of in-silico (computer) models.

These models are each based on a host of speculations and an un-isolated gene sequence from a dead Chinese researcher.

So, when I say there have been no deaths proven from COVID-19, it is literally true.

By established protocols since

People HAVE DIED of severe symptoms of unknown cause, assigned to an unverified disease COVID-19.

But there can be no proof, because no disease-causing agent has been isolated.

It will be clear from what follows that there is an overwhelming amount

DRAFT

of mis/disinformation in the main media and from government.

This heightens the legitimate concerns of the increasingly informed and

deceives the ill-informed interpretation-reliant masses into fearful obedience.

The RT PCR tests with their 80% known error rate at the 30+ cycles used to test for C-19 are ALL based on these same fictional speculations.

Ensuring that NONE of the RT PCR test results can be true results indicating presence of COVID-19.

RT PCR testing is NOT diagnostic of disease in any case. Never has been, never will be.

This is obvious, if you know the test works by extreme amplification.

PCR test sampling swabs are often sterilised with Ethylene Oxide.

Pack says "Sterilised with EO".

Ethylene Oxide is a very significant carcinogen and neurotoxin.

These samples are taken from the rear of the sinuses from tissue that is very thin and has the cerebro-spinal fluid of the brain cavity on the other side.

Placing ANY amount of neurotoxin-carcinogen that close to the brain tissues is foolish and can only be described as negligent at best.

NO quantity of this dangerous toxin should be allowed anywhere near those tissues.

So, where did they get the spike protein structure, now being programmed into people by the vaxx's?

We do know it is speculated to be a SARS-CoV #1, ACE2 receptor targeting, spike protein on the front end.

And that it has a non-human bacteriotoxin back-end that is not found in human viromes.

Obviously, it is a human-constructed protein, not found in nature.

The famous Salk Laboratory has discovered in recent months that the spike toxin is causing the deadly and maiming micro-clotting and inflammations, two critical symptoms of COVID-19.

Heart inflammations, aneurisms, low blood oxygen, organ failures. All caused by the spike protein.

So, how can they identify a variant when they don't even have the original? They cannot.

It is NOT POSSIBLE to re-identify something that has not already been identified.

Neither identification protocol to identify a disease-causing agent has been established.

The four Koch (1884) and six Rivers (1937) postulates are the methods to properly identify disease-causing agents.

DRAFT

Neither has been completed for any of the theorised models anywhere in the world today.

There are many effective preventive/curative Zinc ionophores for COVID infections.

Prevention and early disease cures are well established for all early onset COVID diseases.

The existence of effective preventions and cures prevents the emergency authorisation of new therapies.

This is the obvious strategy behind discrediting the highly effective HCQ and Ivermectin therapies.

If they are true, the emergency authorisation for the vaxx's MUST be withdrawn, so they are discredited.

UV light, fresh air, salty air and direct sunlight also destroy COVID viruses quickly.

The serious symptoms of COVID-19 disease appear to be primarily related to an

Antibody-dependent enhancement (ADE) of the immune response.

Causing micro-clotting, tissue inflammation, lethal muscular fatigue in the diaphragm and heart, and cytokine storms.

All well documented in medical discussion vlogs and chat boards.

ADE is known by vaccinologists to be caused by vaxx's.

People exposed to the wild virome after being vaxxed against it can develop ADE.

Pandemic! Where?

Prior to the vaxx roll-outs, the serious disease has only happened in an epidemic manner in,

Wuhan (we think?), Bergamo Italy and New York USA.

Lesser outbreaks abound in pockets but nothing amounting to an epidemic even.

Usually in elderly communities, just like the 'flu does every year.

There is no evidence of a pandemic, anywhere.

there is just a positive PCR test result fakedemic.

Many hospitals on COVID standby have laid off staff and are under-utilised all across the world.

Not everywhere, but more often than not.

Extraordinary death rates in Israel and India.

The first to do mass-vaxx programs.

Deaths were much higher than the earlier 2020 data.

The vaxx's have proven to be 40 to 270x more lethal than the wild disease.

DRAFT

These deaths have not all been in the vaccinated.

They all occurred within 19 days of the delivery of the first or last shots.

or after exposure to vaxxed people by unvaxxed people.

This indicates that the vaxxed population is shedding something that can kill and maim others.

This is called an SAE or Secondary Adverse Event by Pfizer whose instructions for the emergency stage 3 trial actually indicate that this was expected.

Pfizer advises the any woman experiencing secondary adverse events should not have children.

It also advises that skin contact or even breathing the same air in a room may allow an SAE to occur.

And they may occur via a secondary male who skin-contacts a woman AFTER being in the same air space or having skin contact with a vaxxed person!

Potentially the spike protein or a part of it is shedding from the vaxxed in breath or skin excretions.

Fictional unverifiable variants are being blamed by the media and political commentators.

Speculation: It seems likely that the vaxxed may need to be quarantined permanently and even their bodies cremated when they die to destroy the shedding spike protein toxins that already appear to be so lethal to others.

These are a Doctors speculations based on scant data and Pfizer instruction documents.

Lockdowns do nothing to “flatten the curve”.

This has been known since the 1918 “Spanish(US) ‘flu”.

There is no country death rate chart in the entire world that shows a distinct decline in transmissions or deaths after lockdowns are implemented.

They make no discernible difference for ‘flu’s but ARE necessary for Ebola’s.

Transmission does NOT occur without symptoms.

10 million cases were reviewed.

Not one transmitted from an asymptomatic person.

All disease occurrences transmitted from another symptomatic person.

Masks do nothing to stop infections of their wearers.

Many operational scientific studies have proved this.

Masks DO incubate other infections though, so wear them minimally and loosely.

IF you are symptomatic with any ‘flu-like symptoms **then** masks can reduce your own transmission to

DRAFT

others.

You should be self-isolating while you are symptomatic.

If you do have to be near others then wear a mask loosely,

be near others only briefly, and maintain physical separation.

I notice hosties on planes have taken to uncovering their noses often and leaving the sides loose. A good idea.

Also, get a set of reusable or disposables and change them regularly, no more than hourly apart.

Wash the reusables after every use and store them in disposable bags.

Herd Immunity is the ONLY effective way to flatten the curve and minimise exposure of the vulnerable.

This has NOTHING to do with vaccination and everything to do with protecting the vulnerable through hygiene

and preventive therapies. Zinc ionophores, dietary Zinc and vitamin D.

Ionophores proven to be effective include, Quinine (Tonic Water),

Hydroxychloroquine, Ivermectin and Quercetin (flavonoid supplement).

Vitamin D melatonin is very important to boost immune system functioning.

Also, allowing everyone else to get the wild virus as soon as possible is essential

because wild virus exposure grants the longest immunity and also a wide variant immunity.

When around 60% of people have had exposure,

infection rate naturally declines quickly and for all related variants.

Unlike the new vaxx's which do not inoculate and cannot protect against variants.

Chlorine dioxide (Cl O₂) is the best disinfecting solution to use.

It is a broad spectrum anti-biological particle and anti-bacterial agent.

It is NOT a bleach.

Destroys biological molecules quickly through rapid oxidative reactions.

Destroys bacteria and viral proteins with a very high efficacy close to 100%.

Also the best for sanitary washing of hands, faces, food, surfaces and fabrics.

It is cheap and can be bought online.

Used commonly to treat drinking water and prepare vegetables.

I get CleanOxide from NaturalWaterSolutions in WA online.

The tablets are for water tanks so I make a concentrate and dilute that in small doses.

A cup of drinkable dose, twice daily, has successfully assisted in treating COVID disease.

DRAFT

This may also help to prevent disease development.

CIO2 is a toxic metals chelating agent too for Aluminium and Mercury.

(Commonly injected in vaxx's as an adjuvant).

As a basic molecule it can transit the blood-brain barrier, like a salt,

and be effective in taking out metals in the brain too.

It is illegal in Australia to be required to divulge medical conditions.

So, it is illegal to question a claimed mask exemption.

It is certainly illegal to simply mandate masks in workplaces.

Employers may only suggest and offer masks for people to voluntarily participate.

Employers cannot enforce government edicts. Again they may only suggest.

Being VERY careful to not in any way coerce.

Mask exemption letters must NOT be required to prove exemption.

Those who claim exemption do so at their own assessment.

They do not have to provide proof.

A person just needs to say they believe they are exempt.

Jeanette Young recently confirmed this in a public comment.

(Australian Privacy Act 1988 section 94H)

IF a person receives a fine notice from the police for not wearing a mask,

they should respectfully elect to have the matter heard in court.

EVERY fine notice that has been elected to court has been withdrawn.

Because mask wearing is a medical procedure and must NOT be mandated.

IF a person pays the fine, they are contractually agreeing

to voluntarily participate in the mandate.

So, they can then be fined again, and again.

There is a crimes against humanity trial beginning next week in Germany.

The legal team are going to take to task these illegal and draconian mandates in Germany.

The World is watching and being briefed on the arguments.

DRAFT

Out of that trial preparation, others are being prepared in the UK, USA, Australia and other countries.

Airline CEO's are in serious trouble.

They have mandated coercively the vaccination of airline workers.

This violates the international Nuremberg Code.

Airline workers have been harmed by the vaxx!

Mandatory edict-makers who deny human rights, causing death, are liable to the death penalty.

The Australian constitution Section 52 part XXIII A, supports the Nuremberg Code.

The Australian Biosecurity Act, section 61 sets very strict conditions

under which a medical procedure may be forced.

This Act is in contravention of the Nuremberg Code however, and the Australian Constitution.

There can be no mandation of any medical or dental procedures, EVER, in Australia.

ALL such procedures require fully informed and personal consent.

This is why mandates of medical procedures like vaxx, masks and Lockdowns are illegal.

And, coercion of any kind to conform to mandates like fines and arrests is also illegal.

"It's all beer an' skittles until somebody gets hurt" goes the old saying.

People ARE being killed in Australia by the vaxx's and they are being maimed for life too.

Paralysis, heart inflammations, aneurisms, chronic fatigue, ...

The storm is gathering daily.

Professional medico's and lawyers across the globe are gearing up to take this fight to the people behind these lies and atrocities.

Medicine has been irrevocably discredited. Big pharma will not survive it.

Official disinformation, social media censoring and the active political cancel-culture are obscuring real data.

Opinion: There could soon be acts of outrage by the public at large.

The lies, inconsistencies and cancelling of authentic reports of injury or death are obvious.

People ARE painfully waking up more and more. Outrage is building in uncensored social media.

Appeal for help: I am searching for therapies that may help the vaxxed.

DRAFT

Particularly with the Antibody Dependent Enhancement (ADE) and acquired immune deficiencies (AID's).

Thesis:

Perhaps a lifelong use of Ivermectin may block the spike proteins from attaching to ACE2 receptors and becoming toxic.

It has helped in India recently.

It would not stop them shedding from the vaxxed though. That process is irreversible.

A very recent study in Germany has shown that the leaf of the dandelion plant has natural ingredients that are active in preventing all spike proteins from bonding with ACE2 receptors.

If you find any other or further info on any of this, please let me know.

Report...<https://thecoloradoherald.com/2021/covid-19-tests-contain-poison/>

mRNA therapy DOES permanently alter DNA.

<https://phys.org/news/2020-01-rna-effect-dna.html>

Spike protein IS the disease-causing component in the COVID disease.

<https://principia-scientific.com/covid-study-spike-protein-in-vaccines-is-cause-of-deadly-blood-clots/>

Dr Sherry Tenpenny - 8 ways to kill via spike-protein antibody enhancement

<https://www.bitchute.com/video/6eVNv0ESF0fg/>

1. Lung tissue is micro-clotted and diseased. Blood-stream suffocation.
2. Inhibits M2 anti-inflammatory macrophages, causing cytokine storms. Immune system kills healthy cells.
3. mRNA payload has NO off button. Keeps replicating until normal essential cell functions stop working & you die.

Spike proteins cause highly specific killer T lymphocytes to be made that also attack other tissue.

Especially,

4. Motorneurons causing debilitating fatigue,
5. Inner mitochondrial membranes - cellular death
6. Central Nervous System - Palsy (Paralysis)
7. Pancreas - Onset diabetes and worsened diabetes
8. Cerebellum - ataxias causing uncontrolled shaking, frozen(tonically-locked) person syndrome.

27 out of 55 human tissue types reacted ADVERSELY to the presence of spike protein antibody T cell.

Most deaths occur 19 days after vaxx so far.

This is the time it takes to mount the highly specific T-cell response in the body.

These are all auto-immune disease issues.

GREAT RESET.

The Georgia Guidestones https://en.wikipedia.org/wiki/Georgia_Guidestones

Ten principles engraved on the granite Georgia Guidestones. Every word carefully connected.

Maintain humanity under 500,000,000 in perpetual balance with nature. ~7,900,000,000 exist today. 15 in 16 to die.

Guide reproduction wisely — improving fitness and diversity. Eugenics. Fittest survive. Diversity

DRAFT

stipulated.

Unite humanity with a living new language. George Orwell's Newspeak!

Rule passion, faith, tradition and all things with tempered reason. Sociopathic emotionless conformity.

Anathema to messy freedom.

Protect people and nations with fair laws and just courts. World government, dictating laws and legal conduct to nations.

Let all nations rule internally resolving external disputes in a world court. Sounds great, but... the court rules **over** nations.

Avoid petty laws and useless officials. Conformity!

Balance personal rights with social duties. Not social responsibilities, DUTIES!

Prize truth — beauty — love — seeking harmony with the infinite. Grand notions and true. But sinisterly defined in this context!

Be not a cancer on the Earth — Leave room for nature — Leave room for nature. Nature before man.
